

BAKER SAYS OUR ARMY IS NOT TO BE KEPT BEHIND

Secretary States Report Is At Variance With Facts Known Here

READING ALSO DENIES

British Ambassador Declares He Is Confident Ottawa Dis- patch Is Untrue

ECHO OF MAURICE CONTROVERSY?

Washington Observers Think Such Is Case—American Troops Going Forward Rapidly

Washington, D. C., May 13.—American officers are inclined tonight to characterize reports from London by the way of Ottawa that American troops would not be used until a complete and powerful American army had been placed in France, as an echo of the controversy precipitated in England by the incident of General Maurice. They could see no other explanation, since the statement attributed to the war committee by the British cabinet was promptly repudiated by Lord Reading, British ambassador here, and later declared by Secretary Baker in a formal statement to be at absolute variance with the facts as known here.

Lord Reading's statement said he was confident no such announcement had been issued with the knowledge of Premier Lloyd George, adding that the views of the British government which he was transmitting were exactly opposite. Secretary Baker said American troops were now being used in battle and would continue to be used as the supreme commander, General Foch, deemed best.

British Office Must Explain.

Inquiry at the various bureaus of the war department showed that the expedited movement of men to France is proceeding as planned after the announcement that American units would be brigaded with French and British divisions for immediate operations as well as training. In view of these developments, it was felt that an explanation must come from the British capital. It is known that some question as to the way in which American aid is to be employed has been raised in London. Some officials there feeling that the use of American troops should be restricted at this time in favor of American supplies; while others dwell upon the urgent need of man power as the first consideration.

Statement Was An Error

British Now Declare

London, England, May 13.—The Associated Press was officially informed tonight that the statement sent from Ottawa last night attributing to the war committee of the British cabinet the announcement that it had been decided not to use the American army on the western front until it became a complete and powerful force, was due to an error, which has now been corrected.

On Sunday night a report received from London and given out at Ottawa by the director of public information for Canada through the Canadian Press, Ltd., stated that the Entente Allies were so confident of their ability to withstand any drive that might be launched by the Germans, it had been decided not to use the American army now in France until it had become a complete and powerful force. This information was credited to a summary of the operations in the western front by the war committee of the British cabinet.

The report excited much comment in Washington, for it was understood that the American troops had been placed at the disposal of General Foch, commander in chief of the Allied forces in France, by General Pershing, the American commander, and it was known that a large number of men are now holding positions in the front line south of the Somme, near the Meuse, near St. Mihiel, north of Toul and east of Lunenburg.

JACKSON TO BUILD SHIPS.

Philadelphia, Pa., May 13.—Joe Jackson, star outfielder of the Chicago American baseball club, notified Manager E. J. Ryan tonight that he had accepted a position with a Wilmington, Del., ship building company and that he would not play with the White Sox any more this season.

Jackson recently was placed in class 1 A by the draft board at Greenville, S. C., his home town. He declined to state whether he would seek exemption from the ground that he is employed in a war industry.

SIMPLE LIFE' AUTHOR DEAD.

Paris, France, May 13.—George Wager, author of the widely known "The Simple Life," is dead at his home here. He was 67.

EXPECT HOUSE TO PASS OVERMAN BILL TODAY

Republicans Join With Demo- crats in Support of Bill— Speeches Interrupted

Washington, D. C., May 13.—Passage by the house tomorrow of the Overman bill proposing blanket authority to the president to reorganize government departments was forecasted by administration leaders in congress late today after four hours of debate on the long pending measure.

Republicans joined with Democratic members in support of the bill in today's debate, the opposition contenting itself largely to interrupt to speeches.

Chairman W. B. Webb of the judiciary committee told the house the opposition came from the same members who wanted a war cabinet last year. Representative Gard of Ohio, Democrat, speaking in support of the measure told the house the bill gave no real authority to the president but he has under existing law, but merely proposed additional powers for coordination. Representative Longworth of Ohio interrupted to express the belief that enactment of the bill would give the president the right to transfer the powers of the war finance corporation to the secretary of the treasury and to give the secretary authority to spend all of the funds appropriated in that act.

Representative Gillette, of Massachusetts, acting Republican leader, said he believed it would give the president the right to transfer the functions of the attorney general to the chairman of the war industries board.

NEW YORK CENTRAL IS GIVEN SIX MILLION LOAN

Railroad Administration Effects Rate One Per Cent Lower Than Road Could Get

Washington, D. C., May 13.—The Central Trust company of New York has agreed with Director General McAdoo to loan the New York Central railroad \$5,000,000 for six months at six per cent per year interest, or one per cent lower than terms which the railroad company had been able to obtain, the railroad administration announced today. The proceeds will be used to pay off obligations maturing this week.

The Director General was informed by the company, the railroad administration announced, that the best terms on which the money could be obtained at this time would be seven per cent. The New York Central was advised that a seven percent rate on collateral notes of this character was not justified as such a transaction would have the effect of encouraging high rates for money.

The Director General thereupon made inquiry of the Central Trust company of New York, as to whether it could place the \$5,000,000 needed by the railroad for six months at six percent per annum interest and was informed that the Central Trust company would be glad to provide the funds at the rate mentioned.

7,500 SPEAKERS WILL PUSH R. C. CAMPAIGN

Led By Pershing's 50 "Vets" and 200 Wounded Allies, They Will Tour Country

Washington, D. C., May 13.—Led by General Pershing's 50 "veterans" and 200 wounded French, British, Canadian and Australian officers and privates, some 7,500 speakers are expected to bring the needs of the American Red Cross home to the country next week during the drive for the second \$10,000,000 war fund. Soldiers detained to the speaking include many wearers of the Croix de Guerre, the Victoria Cross, the Distinguished Service Order, and other decorations won on the field of battle.

Participants in fighting at Ypres, Vimy Ridge, Gallipoli, Saloniki, Verdun, the Marne, and the Somme, will undertake to make clear to Americans what the hospitals, the nurses, the ambulances, the surgical supplies, the canteens and other service agencies maintained by the American Red Cross mean in saving life, reducing suffering and maintaining the morale of the armies.

The civilian speakers include men noted in public life, including prelates, authors, actors and social workers. There also will be a singing section headed by Miss Schumann, Heink and Alma Gluck.

Former President Taft will lead the civilian speakers, who will include Charles E. Hughes, Alton B. Parker, Charles W. Fairbanks, William Allen White, Booth Tarkington, Meredith Nicholson, Frederick Ward, C. C. Skinner and William Hodge.

Archbishops Mundelein and Hanna, Bishop Lawrence of Massachusetts and Bishop Galtier and many others will represent the churches. Women speakers will include Mrs. August Belmont, Mrs. J. Borden Hamilton and Miss Catherine Burke, who won the title of Commander of the British Empire for her work in Belgium.

WHITMAN VETOES INSURANCE BILL

Does Not Approve Measure Ef- fecting Germans—Will Reject 70 Other Measures

AGAINST SCHOOL BODY

Worker's Compensation Amend- ment Approved—Agricultural Societies May Incorporate

Albany, May 13.—Announcement that the Towner-Gardiner insurance bill relating to the assets of enemy companies within the state, which had been recommended by the state insurance department, will be vetoed by Governor Whitman, was made tonight at the executive chambers. It was also stated that more than 70 other bills passed by the last legislature would be contained in the Governor's omnibus veto, which will be made public tomorrow. The 30-day period in which the Governor must either approve or disapprove measures left for his decision by the last legislature, expired at midnight tonight.

The Towner-Gardiner bill was drafted at the request of the federal alien custodian and designed to provide for the transfer of the assets of enemy companies within the state to a domestic corporation, in order to protect American policy holders. At a recent hearing the measure was opposed by the American Defense society, representatives of insurance companies and the New York Chamber of Commerce.

It was also stated that included in the omnibus veto would be the bill of Assemblyman Martin, which provided for a committee of seven to investigate rural school conditions.

Compensation Law Amended.

The Governor today signed Assemblyman McGinnis' bill, amending the general municipal law so as to permit the governing board of any municipality, except a city of the first class, to permit officials to attend official or unofficial conventions of municipal officers at public expense.

The Walters bill amending the workmen's compensation law so as to bring under its provisions all persons engaged in hazardous employment except the clerical staff and professional employees was also signed by the Governor. The measure specified certain hazardous employments and one of the amendments of the Walters bill brings the following under its provisions.

"All other employments not herein before enumerated, carried on by any person, firm or corporation, in which there are engaged or employed four or more workmen or operate regularly in the same business or in or about the same establishments either upon the premises or at the plant or away from the plant of the employer under any contract of hire, expressed or implied, oral or written, except farm laborers, and domestic servants."

Another measure signed was the Sage bill, providing that the proceeds from the sale of the State arsenal land and buildings, Seventh avenue 53th street, New York city, shall be applied for the purchase of land and the construction of a new arsenal in Albany.

May Incorporate Agriculture Societies.

Gov. Whitman tonight signed the Wicks bill amending the corporations law so as to permit the incorporation of co-operative agricultural, dairy or horticultural associations not having capital stock or conducted for profit, for the purpose of acting as agents for their members. Corporations such as are sanctioned by this act could not be formed under the existing law. The governor's approval of the bill was asked by the state council of farms and markets.

Basing his action partly on his personal observation of the work of conducting the district attorney's office in New York county Governor Whitman tonight signed the Nicoll bill to increase the salaries of the employees of the office ten percent.

"My approval of the bill," the governor said in an accompanying memorandum, "is requested by the district attorney. From my own experience, I deem the provisions of this bill entirely reasonable and in view of the request of the district attorney, I feel it should receive my approval."

GET 3 JURORS FOR PRAGER TRIAL

Twenty-five Venemen Questioned on Hanging. But Twenty-two Have Formed Opinions.

Edwardsville, Ill., May 13.—Three talesmen had been accepted tentatively by the state at adjournment tonight of the first day's session in the trial of 11 men charged with the murder of Robert Paul Prager, enemy alien. Prager, who was accused of disloyal utterances, was hanged by a mob at Collinsville, Ill., on April 2.

Motions by the defense for quashing of the indictments based on technical errors were overruled this afternoon by Judge Bernecker, and up to adjournment 25 venemen had been interrogated by attorneys for the prosecution. All save the three, tentatively seated were excused who said they had formed opinions after reading newspaper accounts of the lynching.

United Effort in War Chest Campaign

Great interest is being manifested in the campaign which will be conducted in this city during the week of May 20 to provide a permanent war chest for support of several war philanthropies that appeal for aid in Oneonta. The plans of those in charge presage a most thorough canvass of the city and the extension of every opportunity for the widest co-operation on the part of its citizens and the expressions of commendation and support that are heard indicate that in this, as in the other public enterprises in aid of successful prosecution of the war, there will be united effort to achieve the greatest measure of success. Everyone realizes the important work which is being conducted by each of these philanthropies; how indispensable it is in this hour of supreme endeavor; what it will ultimately contribute to the success of America in arms; which means the triumph of the ideals of Democracy and of a free people—the crushing of the serpent of autocracy, which has horrified civilization by its hellish work of the past four years. These philanthropies are indispensable in meeting the conditions of war and must be supported. The people have been most generous in the past in their response to the appeals made to them and there is every confidence that they will respond with the same noble spirit in the campaign that is about to begin.

ROADS NEED BIG INCREASES TO MEET COSTS

Estimate At Least 25 Per Cent Will Be Needed in 1918

MCADOO TO CONSIDER

Recommendations Made to Him By Advisers—Expected to Act Within Six Weeks

SUCH INCREASE UNPRECEDENTED

Operating Expenses For Ameri- can Railroads Have Increased By Over \$600,000,000

Washington, D. C., May 13.—Estimates made today by railroad administration officials indicate an increase of at least 25 percent in freight and passenger rates will be necessary this year to meet the higher cost of fuel, wages, equipment and other operating expenses now set at between \$600,000,000 and \$750,000,000 more than last year.

Recommendation that rates be raised by approximately this percentage has been made to Director General McAdoo by his advisers. He is expected to act within the next six weeks and put increases into effect immediately. Shippers will be permitted to appeal to the interstate commerce commission under the railroad act and final decision will be with President Wilson.

Such an increase as is proposed would be the biggest in the history of the American railroads, as the percentage is larger than any ever sought by the railroads under private management and would apply alike to the entire country. Both price and commodity schedules would be affected.

At Work on Schedule.

Rate experts of the interstate commerce commission and the railroad administration now are at work on new schedules. Any increase to be ordered will be arranged in a manner to preserve rate relationships between communities and regions, officials said today, so that industries and commercial interests will be subject to the same degree of rate compensation as at present.

Passenger fares would be raised under the plan suggested to about three cents a mile from the existing general rate of a little less than two and one-half cents.

The proposed increases, it is estimated, would yield about \$900,000,000—\$700,000,000 in freight and \$200,000,000 in passenger revenues. This would leave a margin above the estimated increase in operating expenses, eventually, but since the new rates would not go into effect until the year is half over, the yield would fall several hundred million dollars short of meeting the anticipated deficit this year.

Huge Expenses For 1918.

Railroad administration officials estimate that the roads this year will spend between \$300,000,000 and \$350,000,000 more for wages than last year; between \$220,000,000 and \$250,000,000 more for coal; and between \$230,000,000 and \$250,000,000 more for cars, locomotives, rails, ties, terminal facilities, barges for inland waterways, and other supplies and equipment. The figures may be lowered by later developments, but officials who have studied the situation closely are inclined to believe that they are more likely to prove higher.

SON-IN-LAW OF SWIFT ARRESTED

Count James Minotto Taken Un- der Custody At Chicago By Federal Officials

HELD AS ALIEN ENEMY

Case Long Under Consideration Because of Alleged Pro-Ger- man Tendencies

Chicago, Ill., May 13.—Count James Minotto, son-in-law of Louis F. Swift, the packer, was taken into custody here late this afternoon by deputy United States marshals, on a presidential warrant ordering his imprisonment.

A habeas corpus action was immediately instituted in behalf of the Count, and Minotto was taken before Federal Judge Carpenter and released on \$50,000 bonds. Hearing of arguments on the habeas corpus proceedings was set for May 20.

Washington, D. C., May 13.—Attorney General Gregory has authorized the issuance of a presidential warrant for the internment of Count James Minotto, under the President's proclamation relating to German alien enemies.

Action was taken by the attorney general after long consideration of the case, which was referred to him after the department of labor had refused to order the deportation of the Count. In the meantime the Count has been at liberty on bail.

Count Minotto, a son-in-law of Louis F. Swift, the Chicago packer, is a man of such tangled nationalities that he comes near to being a man without a country. His father was an Italian of avowed pro-German sympathies, and his mother was a noted pro-German actress. He was born in Berlin and educated in the banking business in Germany.

Tried to Go to War.

When the European war broke out he was employed in a German bank in London. He came to the United States and took out first naturalization papers here, but never completed the process. At first he was openly pro-German, but when Italy entered the war he offered to return to his father's land as an Italian reservist, but was refused for physical reasons. Later he offered an ambulance service to the Italian government, but this gift was refused. Later he offered his services to the United States for a commission, but not being a citizen he was rejected.

He was associated with society people in England, the United States and Argentina. He was a visitor at the German embassies in London and Washington, was a friend of Count Luxburg, the now notorious German charge at Buenos Aires, and also of M. Caillaux, former French premier, recently arrested on a charge of treason, and with Mme. Caillaux when they were in South America.

Entertained Secretary McAdoo.

Secretary McAdoo was entertained by Count Minotto when the Secretary visited Buenos Aires two years ago. The Count at that time represented a New York bank in the Argentine, but previously, when acting as agent for another New York bank, was recalled because it was feared his pro-German sympathies would commit the bank to improper practices.

The bureau of naval intelligence, whose request that Minotto be deported was refused by the department of justice on the ground that Minotto had not broken any United States laws or threatened to do so, cited as facts for its suspicion that the Count was a German agent, that he maintained a mysterious office at his Long Island home, and employed a private secretary, although his salary with the New York bank was comparatively small. Minotto's friends explained that his wife was wealthy and consequently he was not forced to live on his business interests.

The department of labor referred the case to the department of justice, suggesting that if Minotto were as dangerous as the naval bureau maintained he might be interned.

WILSON DECLINES INVITATION.

Washington, D. C., May 13.—President Wilson today wrote the Brotherhood of Locomotive Engineers that he was unable to leave Washington to attend their convention now in session at Cleveland. It is expected, however, that Director General McAdoo will speak before the convention at a late date and probably make some important announcement of the government's railroad policy toward railroad workers.

that they are more likely to prove higher.

The estimate of increased wages is based on the probability that the Director General will approve a scheme of higher pay for workmen in accordance with the railroad wage commissions recommendations, which called for an additional \$200,000,000 to the \$2,900,000,000 pay roll of last year.

YANKEE ALARM CLOCK OUTWITS THE GERMANS

Set Ringing in No Man's Land, It Draws Enemy Fire—Hum Ruse Discovered

(By the Associated Press.)

With the American Army in France, May 13.—How an American alarm clock kept the whole German line guessing and caused the Germans useless expenditure of large quantities of machine gun and rifle ammunition all one night was related today.

The Americans had been trying for some time to draw the fire of certain enemy units.

"Leave Fritz to me," said a happy faced young American, who putting an alarm clock under his arm disappeared into No Man's Land under cover of darkness and fastened the clock to a wire.

Soon the alarm rang, whereupon the Germans opened fire. The alarm had been so arranged that the clock continued to ring intermittently and each time drew a violent fire from the enemy. Meanwhile the Americans rested in their trenches and enjoyed a hearty laugh.

An American officer turned the tables nicely on the enemy recently. The Germans had retired during the bombardment to concrete dugouts behind their trenches leaving the first three lines to one man who went around setting off flares so as to create the impression that the whole front was alive with Germans.

An American patrol leader went over and discovered the ruse. He killed the one German entered the trenches and gathered dozens of street signs which the Germans had posted, returning to his own lines with the signs tucked under his arm.

GERMANY MAKING NEW CRUISING SUBMARINES

Taking Step to Overcome Pres- ent Mastery of Old Type By Allied Navies

Washington, D. C., May 13.—Realizing that America and the Allies have gained the mastery over the present type of submarine, Germany now is said to be planning a new series of big U-boat cruisers, with which she hopes again to assume the advantage in her unrestricted underwater warfare. Announcement of the new German scheme is made by George Leygues, the French minister of marine, in an interview received here today in an official dispatch from France. No details regarding the U-boats were given by M. Leygues, but from information from other sources it appears that the cruiser submarines will be heavily armed and armored, and will be designed especially to meet the menace of the torpedo boat destroyers, which proved so effective in hunting down the submarines now in operation.

Mr. Leygues declared that the Allies are ready to meet Germany's new effort and will rest upon the "firm results obtained in the past."

"We shall not stop," he said, "until we have cleaned up the sea as one cleans up a trench."

Just how effective has been the war against the U-boats is shown by the figures on destruction of Allied shipping given to the naval committee of the French chamber of deputies Saturday by M. Leygues. They reveal that sinkings of merchantmen have fallen off to the point where new construction is exceeding the destruction even now before American yards are in full swing on the great building program mapped out by the shipping board. The monthly average of destruction this year, as given by M. Leygues is \$15,000; compared with more than 500,000 tons monthly in 1917. In April of last year the first month of Germany's unrestricted submarine warfare, the tonnage sunk was \$71,000. In April of this year it had dwindled to about 255,000 tons.

On the other hand the destruction of submarines is exceeding their construction by the enemy and the margin is expected to increase as additional American destroyers which now are being turned out rapidly, take their place with the warcraft operating in the war zone.

The total of Allied shipping destroyed in the first four months of 1918 was placed by M. Leygues at 1,025,525 tons, and even if the submarines are able to maintain this rate, which officials doubt, the year's total would be something like 3,700,000 tons, or less than the estimated amount of tonnage which the shipping board believes America will produce during the year.

Adding to American production the output in Great Britain, France and Japan, the Allies would gain in the year something like 2,000,000 tons, not counting the 1,000,000 or more tons of chartered Japanese and Norwegian ships and requisitioned Dutch vessels. While encouraging, officials emphasize the fact that these figures do not furnish the margin of safety that is necessary and there will be no relaxing of building in any of the Allied countries. England's output so far this year has not come up to expectations, and the American yards have not turned out the tonnage anticipated because of freight congestion and other causes.

HUNS MOVING UP MATERIALS FOR NEW BIG DRIVE

Big Guns Are Active Along Albert Line North of Serre

ATTACKS MOSTLY MINOR

Heavy Artillery Firing Also Con- tinuing to the North of Kemmel Hill

BRITISH ADVANCE IN THE EAST

Austrians Try Vainly to Dislodge Italians From Monte Carlo —Karl Visits Kaiser

Germany's resumption of the gigantic offensive against the Allies on the west front has not yet materialized. In various sectors there have been local operations, which have no bearing on the situation as a whole, but along the entire front there is a quiet that might be encouraging were it not for the fact that the Germans were known to be moving up men and materials for a new move in the mighty drive launched on March 21.

Field Marshal Haig reports making special note of activity by the German artillery north of Serre. This little town is situated behind the Teutonic lines north of Albert and marks the apex of a triangle, the base of which is the line between Hebuterne and Buquoy.

For several weeks military experts have been watching developments in this particular region, for the reason that it is the logical point from which the Germans may be expected to launch a great turning movement against the Arras sector. During the early days of April, when the Allies made a final stand on the line, which they at present hold, the Germans centered their fiercest drives on the Hebuterne and the wooded hills to the south and southwest. They failed to advance farther, and later lost ground to the Allies on this point.

Heavy Gunning at Kemmel.

The country to the west of Hebuterne is quite hilly and has many steep ridges which afford admirable defense positions. To the north and northwest, however, the country is moderately level with long undulating ridges which might be stormed readily by heavy masses of troops.

Field Marshal Haig mentions, too, considerable artillery fire to the north of Kemmel, but this has been a region where the cannon of both sides have been roaring for weeks.

The southern portion of the British front has also been under heavy fire from the heavy guns, and this may indicate that the Germans are getting ready for a new effort to reach Amiens.

Elsewhere on the western front the reports tell nothing of interest as revealing the situation.

Since the Italians captured Monte Corno on Saturday morning the Austrians have tried in vain to regain this commanding peak south of Asiago, but have been met by stern resistance.

In Mesopotamia the British forces have progressed farther up the Tigris, and have captured Kirkut, pursuing the Turks for 20 miles to the northward. The British are now 60 miles east of the important city of Mosul, the site of the ancient city of Nineveh and the crossing of the numerous caravan routes.

Emperor Charles, of Austria, accompanied by his foreign minister and military leaders, has called upon Emperor William. The report of the meeting says that there was "complete accord" in their discussions of the present and future relations of the countries.

NEW YORK STATES GIVES 191,000 SONS TO WAR

Sherrill Says Report State Guar- Will Be Federalized Is With- out Foundation

New York, May 13.—In volunteer and through the draft New York state has contributed 171,000 men for the war against Germany. Charles H. Sherrill, adjutant general of this state, announced here tonight.

Moreover, non-commissioned officers training in the state guard are seeking to enter federal service said General Sherrill, who added that "we are prepared to furnish corporals and sergeants at the rate of 100 a week."

General Sherrill denied the truth of a report in circulation among members of the State Guard that the new organization is to be federalized and used for service on the Mexican border or to "deal with inter-l troubles."

"It is absolute nonsense," he said. "The new state guard was organized under a state and not a federal law. The law of 1917, which gave the governor authority to build up a militia force for service purely within the state."

BASEBALL RESULTS

NATIONAL LEAGUE

CUBS THERE WITH STICK.

Braves' Pitchers Batted All Around by Slab Artists—Score 10 to 2.

Chicago, Ill., May 13. — Chicago batted Boston's pitchers freely today and won, 10 to 2. Merkle had a perfect batting average, driving in three runs.

SEVEN RUNS ON TWO HITS.

Times Wild in Game in Which Cincinnati Downs Superbas.

Cincinnati, Ohio, May 13.—Grimes was so wild in the first two innings today that the Cincinnati team scored seven runs on two hits, a double by Blackburne and a triple by S. Magee, enough to win the game.

RAIN STOPS THE BATTLE.

Contest Between Quakers and St. Louis Goes 10 Innings to 3 to 3.

St. Louis, Mo., May 13.—Rain halted today's game between Philadelphia and St. Louis in the tenth inning with the score standing 3 to 3. It was a pitchers' battle between Oeschger and May.

"Is Bliggins patriotic?"

"Yes, but not always with judgment. He insists on singing 'The Star-Spangled Banner,' no matter how he makes it sound."

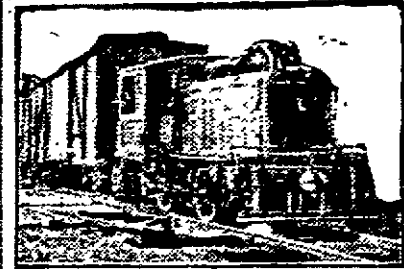

GASOLINE IS USED

Automobile Takes Place of Locomotive for Yard Use.

NO WASTE WHILE INACTIVE

Six Cylinders of Huge Engine Furnish One Hundred and Sixty Horsepower—Hauls Seven Modern Loaded Freight Cars.

For long trunk lines, the steam locomotive has proved itself to be the most economical type of tractor. For short lines, and for factory yards or railroad terminals, however, steam propulsion is about the most expensive. Whether the locomotive is standing idle or not, steam must be kept up, and coal must be used continuously. The gasoline locomotive which has now

Automobile-Locomotive.

entered the field is doing all that the steam locomotive does, without the former's waste when inactive.

This gasoline locomotive is virtually the ordinary automobile mounted on a locomotive frame. The six cylinders of the huge gasoline engine furnish 160 horsepower. Connecting the engine shaft with the wheel driving cranks on either side of the locomotive are a rigid gear transmission and an automobile friction clutch of appropriate dimensions. The side-bars connecting the wheels with the cranks are exactly similar to those on the regular steam locomotive.

When the gasoline, which is stored on the top of the hood, is fed into the engine under full load conditions, the locomotive can haul seven modern freight cars filled to their 50-ton capacity at a speed of six miles an hour.

FINANCIAL AND COMMERCIAL

The New York Markets.

New York, May 13. — Last week's bull campaign in stocks was promptly resumed with greater vigor at the opening of today's market, extreme gains in a wide variety of issues ranging from 2 to almost 10 points.

The rise encompassed practically all the popular war issues, shipping, motors, and their accessories and fully two score active and inactive industrial more or less directly affiliated with the war group.

Rails were slow to come forward, but made gross gains of 1 to 2 1/2 points during the intermediate period. These were materially reduced in the extensive selling for profit, that marked the final hour.

United States steel's leadership was again undisputed, rising 3 1/2 to 112, but closing 1 1/2 under its maximum, a net gain of 1 1/2. Steel contributed no less than 275,000 to the day's total turnover of 1,255,699 shares.

Other noteworthy features, were Sumatra tobacco at an extreme advance of 9 1/2 to the new maximum of 125 1/2, general motors 4 1/2, Industrial Alcohol 3 1/2, distillers malling, first preferred 5 1/2, Lackawanna steel 3 1/2, and Republic Iron 3 1/2.

Shippings were 2 to 5 points higher at their best and oils, fertilizers and several of the minor metals registered substantial gains, nearly all of which were subjected to various impairments at the close.

Enlarged offerings forced Liberty 4 1/2 down to the new low of 97.50, and the second 4s made a new minimum of 94.50, first 4s and 3 1/2s also denoting renewed pressure. Total sales par value aggregated \$8,350,000.

Old United States issues were unchanged on call.

New York Produce.

Butter — Steady; receipts, 9,527; creamery, higher than extras, 47 1/2; creamery extras, 92 score, 46 1/2 @ 46 1/2; firsts, 43 1/2 @ 45; packing stock, current make, No. 2, 30 @ 30 1/2.

WHY IT WAS SO EASY FOR BARNUM.

P. T. Barnum said the American people liked to be fooled. He might have said they like to fool themselves. Germany produces 30 bushels of potatoes per capita and wastes none. America raises four bushels and can't give them away. Thousands of bushels of potatoes are going to waste for want of a market at a price less than the cost of production. And this in spite of the fact that cereals are hard to get at any price. Potatoes moved faster in 1917 at \$3 a bushel than they have done in 1918 at \$1.25. What is the answer?

May Be Only Washing the Cans.

"TIZ" FOR SORE, TIRED FEET—AH!

"Tiz" is Grand for Aching, Swollen, Tender, Calloused Feet or Corns.

"Tiz" makes my feet smaller."

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous excretions which put up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never ache, burn or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions. Get a 25 cent box at any drug store or department store and see instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it.

AN APT DESCRIPTION

"Ever see a mermaid, Pete?"
"Yasss."
"What did she look like?"
"Oh! I don't—rather like a lady cut decollety, with a hobble skirt around her propeller."

Ford
THE UNIVERSAL CAR

Over two million satisfied owners know from experience that the Ford car is a real utility, an economical, powerful, always-reliable means for increasing the profit in business or adding zest to pleasure. The Ford car meets the demand for prompt transportation in every line of human activity. The demand grows larger every day, because of the all-around usefulness of the car.

OTSEGO COUNTY NEWS

LIGHTNING DAMAGES CHURCH.

Bolt Strikes Steeple of Otsego Building—Other Havoc Wrought.

Otsego, May 13.—During the storm of last night, the Baptist church steeple was struck by lightning and badly damaged. A ball also struck B. P. Jennings's house, splintering one of the porch posts. The wind blew a roof over and removed part of the roof of the barn of the Louis Reddington farm. The chimney on the Hobby farm residence between Otsego and Wells Bridge was also razed.

Births.

Born, May 11, to Mr. and Mrs. Melvin Gillett, an eight and one-half pound daughter.

O. E. S. Social Club to Meet.

The O. E. S. Social club will meet at Mrs. Mattice and Mrs. Root, at their home, Thursday afternoon, from 5 to 5 o'clock.

Doll Social Well Attended.

The Doll social, held in the parlors of the Methodist Episcopal church Friday evening, was well attended and a goodly sum was realized from the sale of dolls.

Red Cross Dance.

The May ball held in Fuller's hall Friday evening for the benefit of the

Red Cross was a decided success. The committee in charge, after paying the expenses, gave \$28.60 to the organization.

Red Cross Notes.

The Red Cross will meet at the home of Mrs. Charles Nelson, Wednesday afternoon at 2 o'clock. The younger members of the branch will hold their meeting at 7:30 p. m. with Mrs. Tilley Blakely.

Late Locals.

B. P. Jennings bought a five passenger Ford automobile last week. Mrs. Earl Parker of Binghamton spent Thursday calling on relatives and friends here. W. S. Marsland spent Wednesday in Binghamton. Mrs. Blaine Wakeman of Wells Bridge spent Thursday at the home of her parents, Mr. and Mrs. B. P. Jennings. Miss Catherine Mabey gave a piano solo at the musical recital given by Professor James Keaton in the Municipal hall at Sidney, Friday evening. Miss Cordelia Day of Binghamton is spending a few days in town.

WFST ONEONTA NEWS.

Funeral of Mrs. Helen Scofield Held on Mill Creek Thursday.

West Oneonta, May 12.—The funeral of Mrs. Helen Scofield was held Thursday from the home of her son, Addison, on Mill creek. The service was in charge of Rev. Robert Fenton of Otsego, a former pastor of the Christian church of which Mrs. Scofield was a member. The bearers were: L. D. Scofield, A. Scofield, J. K. Clark and L. F. Brownson. Interment was made in the Laurens cemetery. Those who attended from out-of-town were, James K. Clark of Mt. Vernon and Frank Williams of Schuyler Lake.

Birthday Party.

Elizabeth Jenks entertained 18 of her friends Friday evening in honor of her fifteenth birthday. The evening was spent in playing games, after which delicious refreshments were served. The guests departed at a late hour, wishing their hostess many more happy birthdays.

Points About People.

Mrs. Leila Champlin and brother, J. Mead, are moving into the tenant house of Mrs. A. Rous. Mr. and Mrs. Raymond Hocking called on the former's grandfather, Mr. Platt, at Laurens, Thursday. They found him in very poor health. Mr. and Mrs. C. B. Weatherly were called in Morris and West Laurens Friday. Maurice Lunt is having his barn wired for electric lights. Those who attended the Christian Endeavor convention at Unadilla Friday were: Mr. and Mrs. B. G. Ackley, Mr. and Mrs. George Crydenwise, Mr. and Mrs. G. C. Chapin and son, Mrs. E. Smith, Mrs. D. P.

SCHUYLER LAKE SIFTINGS.

Schuyler Lake, May 13.—The Woman's Mission circle of the Baptist church will hold its monthly meeting in the church parlor Friday. Supper will be served from 5:30 o'clock until all are served. The town of Exeter has purchased a Linn tractor for use on the roads. Commissioner Lynn Chappel and a large force of men are putting the roads into good condition. Mrs. William Clarke is spending the week with her sister, Mrs. Albert

Robinson, at Monticello. Glenn Mercer of Schenectady spent Sunday at his parental home here. Mrs. John Veber returned to her home at Ilion Wednesday. Mrs. Henry Curtis of Exeter Center is caring for Mrs. Mary Veber, who is failing slowly. Mr. and Mrs. Earl Chase and son of Whiggs Corners spent Sunday with his mother, Mrs. E. A. Chase, and Lee Chase. Mr. and Mrs. Lynn Sides and sons of Cooperstown spent Sunday with her sister, Mrs. E. A. Taylor. Mr. and Mrs. M. J. Clarke, son, Waldo, and Mr. and Mrs. Stewart, Eason, daughter, Anna, spent Sunday with Rev. and Mrs. Arthur Landmesser at Sidney Center. The many friends of Mrs. W. O. Pratt will regret to learn that she is slowly failing. Clara Chase spent the weekend at her home here.

DELAWARE COUNTY NEWS

PORTLANDVILLE ITEMS.

Two Entertainments at Rose's Hall Net \$130 for Red Cross.

Portlandville, May 13.—The entertainments given in Rose hall, Portlandville, Friday and Saturday evenings for the benefit of the Portlandville branch of the Red Cross were far beyond the expectations of those who have been working so faithfully for its success. The receipts for the two evenings were about \$130. The ladies wish to thank those who so kindly gave their time and labor for the work, especially Mr. and Mrs. L. Jacobs of Westville and Mr. Hall of Milford, who met with them for rehearsal and so ably assisted with the musical part of the program.

Brenties.

Mrs. M. Hunt, Mrs. Hilton and daughter were business callers in Oneonta Saturday. Miss Braze of Laurens is a guest for a few days at the home of C. Van Deusen. Mrs. Mina Turner of Milford visited friends here Saturday and Sunday. Mr. and Mrs. Seymour Arnold of Utica are visiting their son, Mahlen Arnold, and wife at Milford Center. Mrs. Clarence Adist of Sherburne is caring for her mother, Mrs. Walter Wright, who has been seriously ill the past week. Mrs. Sitterly of Richfield Springs is spending a few days with her sister.

ECKMAN'S Calcerbs

FOR THROAT AND LUNGS

A Calcium compound that will bring relief in many acute and chronic cases. Provides in harden, firm, a basic remedy highly recommended by science. Contains no harmful drugs. Try them today. 50 cents a box, including war tax. For sale by all druggists. Eckman Laboratory, Philadelphia.

THE STORM IN STAMFORD.

Lightning Followed Telephone Line to Taylor Barn—One Cow Killed.

Stamford, May 13.—The heavy storm, visiting this section on Sunday night, was accompanied with intense lightning, a bolt of which struck several of the telephone poles on the Jefferson line. Following the wire it entered the barn on the H. P. Taylor property, killing one of Mr. Taylor's best cows.

Stamford's Aged Residents Die.

E. P. Dyckman died at his home on Prospect street on Saturday, after a long protracted illness. He was a man of advanced age and for many years past had been in poor health. For years he was the efficient sexton of the Methodist church, of which he was a devoted member. Including in his work at the church he was also the janitor for the bank building and was always found painstaking and dependable. He had been living with his daughter and son in law since the death of his wife.

The death of Mrs. Sager also occurred last week at the home of Charles

When every woman learns that good cooking is more important than high priced foods—then Mazola will be used in every kitchen in America

MANY a costly dish is spoiled by a poor cooking medium—and many a housewife has gained her reputation by serving every day foods cooked the way they ought to be cooked.

Why use a frying or sautéing medium which burns easily when you can use Mazola which doesn't? Why use butter, lard, suet when you can use a medium that is more economical and still get the best results?

Why use olive oil which is scarce and high priced when Mazola is easier to mix in a salad dressing and has a distinctive flavor that the olive oil dressing does not have?

Mazola is economical because there is no waste to it—it can be used over and over again as it never carries taste or odor from one food to another. For sale in pints, quarts, half gallons and gallons. For greater economy buy the large sizes.

There is a valuable Cook Book for Mazola users. It shows you how to fry, sauté, make dressings and sauces more delicious, make light, digestible pastry. Should be in every home. Send for it or ask your grocer. FREE.

FRIED MUSH

Put one quart of water, let come to a boil, add teaspoon salt, when boiling add slowly, so as to have no lumps, enough corn meal to make a good stiff mush. Cook one hour in a double boiler then pour into a deep, square pan so that when turned out it may be cut into nice even slices. Fry slices and fry in Mazola not too deep.

SAL-ODA

Is guaranteed to relieve

Rheumatism

or money refunded.

Do you suffer from rheumatism? Are your joints and muscles stiff and lame? Are you troubled with a lame back? Are your nights sleepless, because of pain?

If so, why not get relief from the cause of your suffering?

Now is the time to rid your system of the poisons which cause rheumatism, and it's awful aches and pains. It matters not whether your case be one of long standing, or a recent attack, SAL-ODA is guaranteed to give blessed relief, or money refunded. Give it a trial—the results will convince you more than all the talk in the world that rheumatism can be conquered. On sale at all drug stores.

EDITORIAL BRIEVITIES.

Russia a few months ago believed in spite of a notable utterance in the first days of the war that a treaty with Germany was something more than a scrap of paper. She knows better now; but Holland appears to be laboring under much the same delusion. It is time for the Dutch, along with the Danes, Swedes and Norwegians, to wake up. Otherwise they too will come under the yoke.

A reassuring evidence of confidence on the part of the Allies comes in the statement that the American forces are not to be used now, but held back as a big reserve until the army is complete. Matters cannot be so bad as by many had been feared if this is the way the French and British feel about it. But there is no doubt that it will be a bitter disappointment to many of the boys in khaki, who are now marking time in France and are on tip-toe with eagerness to get in.

The shipment of anthracite coal during the month of April of the present year amounted to 5,368,373 tons, which is an increase of 776,074 tons, or almost 14 per cent over the shipments of April a year ago. There were several record-breaking months during 1917-18, but the shipments of April are close to the high monthly average of the year. Since, by the above figures, furnished by the Anthracite Bureau of Information, coal is plenty, it is in order for householders to get in their winter supply early, or at least as much of it as can be accommodated.

The navy is exercised over the proposition to adopt the turn-down collar on officers' uniforms, and a questionnaire sent out has up to date 1,033 in favor of the change, 638 opposed and 47 indifferent. If Secretary Daniels approves the turn down, or roll over collar will take the place of the choke, which as its name implies is stiff, awkward and uncomfortable. The army had the same proposition up, but it was turned down on account of opposition by leading officers. The army is notably run on precedent. The present war has broken many of them, and perhaps the stiff, high collar will be one of them.

In our sister town of Sidney there is a man who in other years was glad to loan his heavy iron roller without money or price to his neighbors. This year the neighbors can have the roller, but there is a contribution box attached and whoever borrows is asked to put in money for the Red Cross. This is one way of getting extra money for special war purposes, just as the plowing up of hedgerows and planting potatoes for the same purpose—a plan inaugurated by an Oneonta farmer—is another. There are many ways of making extra money for war purposes, and there is probably not a man who cannot find one for himself, once he puts his thinking cap on.

In schoolboy days it was customary when one boy launched a charge of falsehood against another for the latter to reply, "You're another." That seems to be the method by which the airplane investigation is being carried on. Whether the charges made by the war department that Borglum had betrayed the President's confidence for personal gain are true or not can wait investigation at a more convenient season. Just now what the public wants to know is whether the Borglum charges that the government aircraft organization has betrayed national confidence are true. Settle that first and the Borglum case afterward. This is too serious a matter to be settled by saying, "You're another."

However will win the thanks of his countrymen if his plan for cheap fish in all markets goes through. From May to December, he says there will be many varieties of fish available and sold at a low price. These fish, he says, will come within transportation distance from the seaboard, should sell at not over 10 cents per pound during the summer, not all of them at once, but at least one every day in the season. Among the fish which he says will be available at these figures will be cod, haddock, hake, flounders, whiting, butterfish, and so on, others being added as the shore varieties strike the Atlantic coast in larger volume. If his figures are correct, there should be plenty of fish for everybody in these days of meat shortage.

Leaving for Atlantic City.
Rev. Dr. and Mrs. Edson J. Farley leave Oneonta this morning for Atlantic City, N. J., where they will attend the annual meeting of the Northern convention, which embraces 38 states and is doubtless the largest Baptist gathering in the world. The convention opens on Wednesday and will continue until May 22. Henry Saunders, who is a delegate from the Oneonta church, will attend the convention. He expects to reach Atlantic City on Thursday.

COMMENTS OF THE PRESS

Both Bases Sealed.

When, a few days ago, a German newspaper admitted that the Allies had achieved conspicuous success in the attack upon the submarine base at Zebruge, it admonished the German admiralty to take precautions to prevent recurrence of such an operation.

Thereupon the Allies proceeded to "make a monkey of" the German naval command, by bringing a concrete-laden ship to Ostend, where the first operation was fully successful, and sinking it in the channel through which the submarines passed to and from their base at that place.

Now another admonition to the German high naval command is in order, and another admiral should receive his dismissal.—[Albany Journal.

The High Cost of Sickness.

It costs more money to be sick today, for drugs are sky high in price. A member of a drug firm says the war has cut off supplies and the high cost of labor make the price of drugs higher. Ordinary senna leaves, which used to sell for 12 cents a pound, are now selling for \$1.25. Gum arabic, used in emulsions, and formerly 20 cents a pound, is now selling for 70 cents. Glycerine now sells for 95 cents a pound, but before the war it was 29 cents. Mercury, the foundation of calomel, sold before the war for \$40 for a 75 pound package, now costs \$120, and calomel is nearly four times what it cost before the war. The best thing to do is to obey the laws of health and keep well, thereby saving money to put into thrift and War stamps and Liberty Bonds.—[Utica Press.

Age Cannot Withstand Custom Sale

The bride and groom presented a regal spectacle, never equalled since the proud Cleopatra sailed down the perfumed, lotus-bearing Nile. To describe the bride's costume beggars the English language, and imagination fails faint and feeble before the Herculean task. She was gorgeously arrayed in a calico dress, and a pair of lace curtains floated like a dream about her adorable figure.—[Rushville News.

Hitting Back at Borglum.

The war department defense league is strangely blind to the true issue if it believes that putting Gutzon Borglum "in bad" with congress and the public will settle the great aeroplane scandal. The root of the whole matter lies in the fact that with hundreds of millions spent and the lapse of nearly a year there are virtually no aeroplanes. When the war department and its subsidiaries can explain this condition satisfactorily to the public, it will have free rein to do anything to Mr. Borglum that the law and facts will allow.—[New York Evening Star.

Willing to Be Interned.

"Bobby, if you don't quit making so much noise I shall have to deal severely with you."
"What'll you do, ma?" asked the youngster, who had been reading newspapers.
"Why—er—I'll intern you."
"All right, ma. Let's play I'm a German spy and you feed me on cake and jam."—[Birmingham Age-Herald.

Italy's Army in France.

By sending 250,000 men to France, Italy has contributed a fair-sized army for Foch's purposes. There are more than half a million American soldiers already there. It is well to credit the Germans with all the reinforcements and reserves they may have been able to draw from the Russian front and elsewhere for their desperate drives in Picardy and Flanders, but the Allies also have reserves of man power.—[New York World.

GO TO IT, BOYS!

Says Director DuBois to Youthful Who Are Working on Farms.

Delhi, May 13.—There have now gone out through the farm training camp of the State School of Agriculture at Delhi, 40 members of the Boys' Working Reserve. The demand for boys is now greater than the camp can supply. Against the best judgment of the directors, the larger part of these boys have been allowed to go directly to the farms before having preliminary training at the school. But the farmers are anxious for the boys and the boys are anxious to help, with the result that there will be an army placed in the fields without any training and this will require the greater patience on the part of the farmer and greater effort on the part of the boy to make good.

Boys, you came because you decided that this was the way to help your country most. You know that five million men are to be taken from the shops and the fields of our country for the war and that you, the boys from 15 to 21, are the only ones to take their places, and their places must be taken or the war fails. Those five million men, ourselves and our allies, must have dinner and you are the ones left to produce the food. The boys in the trenches are suffering and I shall lose my faith in my best friends, the boys, if they desert their older brothers.

Therefore, it is you, boys, that is needed. I know that the day's work is hard. I know that there will be aching backs and sore hands, but the soldiers in the trenches cannot turn back and you must not be slackers. But there is fun in the thought that you are producing. Satisfaction in the thought that the food you are growing will win the war. There will be good food for you and it will continue until May 22. Henry Saunders, who is a delegate from the Oneonta church, will attend the convention. He expects to reach Atlantic City on Thursday.

ARMY WANTS SKILLED MEN

SECOND NATION'S WANT COL-
UMN CALLS FOR EXPERT MEN
IN 20 OCCUPATIONS.

Men Qualified Are Urged to Call at
Local Board as Soon as Possible as
Opportunities Close on or Before
May 20 — Men Accepted Go to
Camp June 1.

Six thousand more men of draft age are wanted by the army at once to answer a second "Nation's Want Column" issued by the war department Saturday. Men qualified are urged to apply at their Local Boards as soon as possible for induction, as the call closes on or before May 20. Those accepted will be forwarded to camp on June 1.

The list of occupations and the camps to which the men will be sent are as follows:

Airbrake inspectors: Engineer corps, Camp Benjamin Harrison, Indianapolis, Ind.
Bargemen and boatmen: Engineer corps, Laurel, Md.
Boiler inspectors: Part will be sent to Engineer corps, Camp Mead, Admiral, Md., and the balance to Engineer corps, Fort Myer, Va.
Boilermakers and helpers: Engineer corps, Camp Mead, Admiral, Md.

Railroad brakemen, flagmen and conductors: Engineer corps, Camp Dix, Wrightstown, N. J.
Electric crane operators: Engineer corps, Fort Myer, Va.
Crusher operators: Engineer corps, Camp Humphreys, Accomack, Va.

Stationary engineers and firemen: Engineer corps, Fort Myer, Va.
Gas plant workers (acetylene, hydrogen, oxygen, poison illumination or compressor): Engineer corps, Washington Barracks, Washington, D. C.

Gunsmiths or operatives in gun factories, instrument makers and repairmen: Ordnance corps, Camp Hancock, Augusta, Ga.

Hostlers and stablemen: Veterinary corps, Camp Lee, Petersburg, Va.
Locomotive inspectors: Engineer corps, Camp Mead, Admiral, Md.

Railroad car repair men: Part to go to Engineer corps, Fort Myer, Va.; and part to Engineer corps, Camp Dix, Wrightstown, N. J.

Veterinarians: Veterinary corps, Camp Lee, Petersburg, Va.

Only white men, physically qualified for general military service will be inducted under the above calls.

There is also a call for colored men as bricklayers for the Signal corps, aviation mobilization camp, Fort Wayne, Mich.

Three men have already enlisted under these new calls. Charles Hitchcock, a stationary fireman; Joseph McDonald, colored, as bricklayer; and Leon T. Patnode, locomotive inspector.

RONAN BROS.

Styles of the Hour

They are splendid examples of the good selection and reasonable prices that distinguish our entire stock.

Women's Tailor-Made Suits

\$20.00—\$25.00 and \$30.00

Dress styles of serge, poplin, tricot and gabardine in practically all of the good styles of the season. Black, navy blue and some colors. Also sport suits, tweeds and heather mixtures.

Women's Top Coats

\$12.50—\$18.00 and \$25.00

Smart top coats of gray materials, and fancy mixtures. In dark shades of navy, tan and gray. Made in good, full enveloping styles, belted all around, and deep convertible collar.

Our Famous Trimmed Millinery

\$3.75—\$5.00 and \$7.00

Always something new in our collection of trimmed hats—new shapes, new styles in trimmings, new ideas carried out in the placing of a flower or quill on the flare of the brim. This ever-changing newness is the secret for the increasing demand for these popular priced hats.

Headquarters For Nemo Self-Reducing Corsets

Designed for figures from medium to stout. They embody the suspension stays, which give added durability and flexibility; and the adjustable, reducing and supporting bands, which reduce, support and flatten the abdomen.

RONAN BROS.

IT'S TRUE

That there are not many bargains in the market
Deliveries are late

Last Winter's Underwear just delivered at old prices. Bought to sell at \$2.00, worth \$2.50 on today's market. Rather than have our money tied up, we'll offer it Today and Monday at \$1.65 a garment union suits only, sizes 34 to 46. Here's a chance to save, buy three garments now for the price of two, if you wait till fall.

500 Skilled and 5,000 Unskilled Men

We are offering steady employment to men between the ages of 18 and 45 on Government work and regular commercial lines. Our factory operates six days per week on three eight-hour shifts. While learning operations we pay you 35c per hour plus 10 per cent bonus on all wages for steady attendance computed in weekly periods. After learning the work, which takes from one to six weeks, you are able to earn from \$3 to \$6 per day and better.

Machinists, pipelayers, electricians, pattern makers, sheet metal workers and carpenters. Highest wages in this section of the country. Government work. No labor troubles. Eight hours and 10 per cent bonus for steady attendance.

We refund railroad fare of \$10.00 and less in 30 days and \$26 and less in 60 days. We have a Housing Department which will assist you in securing houses and rooms at lowest rates.

We also need a large number of girls, ages 21 to 35, for steady, profitable factory employment.

Applicants must pass a satisfactory physical examination.

Apply in person, or communicate with Factory Employment Office.

LOCAL MENTION.

—"Hi" Alger, a well-known local character, who is over ninety years old, is in a critical condition, suffering from the effects of a recent shock. He is not expected to long survive.

—The Surgical Dressings rooms will be open this afternoon from 4 until 6 for the High school girls. Miss Howe's class in surgical dressings will meet at the rooms in the evening.

—The Citizens' National bank is displaying with commendable pride, as it may well do, an honor flag indicating that it is a hundred per cent institution, i. e., that every employee of the institution has bought a Third Liberty Loan bond.

—There was a good attendance yesterday at the Oneonta theatre, where official Red Cross pictures were shown as part of each entertainment. The pictures were vivid and realistic representations of war scenes and of the work of the Red Cross at the front and in the hospitals.

THE LEADING CANDIDATES.

For the Photo Play Contest at the Strand Theatre.

Following are the leaders in the photo play contest for the picture, "A Call to the Colors," to be made here:

Favorite Man — Fred Brees, Albert Morris, Lawrence Kenney, Arthur Wheeler, Charles Buck, Ursil Beach, Alfred Carr, Damon Getman, Mannon Parish, Francis Fahey.

Favorite Woman — Helen Keenan, Virginia Perry, Katherine Carless, Virginia Morris, Dorotha Hanks, Minnie Parks, Irene Hayes, Winifred Charles, Julia Martin, Margaret Ogden.

Favorite Kiddles — Marcus Hamstreet, Edward LaRue, Harold Hendry, Madoyn Shearer, Helen Yagel, Elizabeth LaRue, Clifford Mulkins, Donald Charles, Eleanor Becker.

Meetings Today.

The Neighborhood Red Cross will meet with Mrs. C. O. Biederman, 404 Main street, this evening at 7 o'clock. The Woman's Missionary society of the Free Baptist church will meet this afternoon at 3 o'clock with Mrs. F. E. Brees, 8 Maple street. Leader, Mrs. Leslie Townsend.

All members of the K. O. T. M. degree team are to meet at 8 o'clock for a rehearsal.

Women's Home Missionary society of the Methodist Episcopal church will meet in the church parlors this afternoon at 2:30. Ladies please bring mite boxes. There will be patchwork.

Centennial lodge, No. 447, I. O. O. F., this evening at 8 o'clock. A good attendance is desired. Odd Fellows welcome.

Regular meeting Queen Amelia court this evening at 7:30. Initiation.

Meeting Wednesday.

The O. E. S. Social club will meet Wednesday afternoon with Mrs. W. I. Bolton, 24 West street. Come early, prepared to do Red Cross work. Hostesses: Mrs. Rogers and Mrs. Bolton.

Boy Scouts, Attention.

On Tuesday evening, at the regular meeting of the Scouts at 7:30, in the High school gymnasium, a complete registration and public inspection will be conducted. Every Scout is expected to attend this important meeting. William Gaskin, Scoutmaster.

J. E. Tilley Sells Lots.

J. E. Tilley, the local real estate agent, has sold four more lots of the Miller plot on Lower Chestnut street. These were purchased by Ray H. Kellam of this city. Two of the lots face Chestnut street and two are on James street.

Uncle Sam Calling for Discarded Flat-iron, Gold and Silver Jewelry.

WAR CHEST ACTIVITIES

CAPTAINS OF TEAMS TO BE NAMED PEABODY TODAY.

Planning for Big Rally to Open the Campaign — Date and Place to Be Announced — Project for War Charities Only.

How much am I expected to contribute to the Oneonta War Chest? seems to be the prevailing question in the city and while no one, least of all the directors, would attempt to determine the answer for each individual case, yet it was determined at a meeting of the directors of the project, held last evening, that an estimate based upon income should be submitted as suggestive for the guidance of both those willing to cheerfully do their part if able and for the inspection of the canvassers who bright and early Monday morning next will commence a close canvass of the city. After careful consideration of the table it was approved as follows:

Annual Incomes	Monthly Subscriptions
\$1,200 or less	\$1.00
\$1,400	2.00
\$1,600	3.00
\$1,800	4.00
\$2,000	5.00
\$2,500	7.50
\$3,000	12.50
\$4,000	25.00
\$5,000	50.00
Larger amounts	10 per cent.

It is believed that to reach the desired amount that these figures will have to be secured from the average individual, so that in cases where there are but one or two in the family these amounts will have to be increased to balance those who have large families or excessive necessary expenses and who perhaps will be obliged to fall short of the suggested amounts.

Planning Mass Meeting.

The committee is planning to have one big mass meeting with prominent speakers and other attractive features to open the campaign, which it has been suggested, be held in the state armory on Sunday evening or afternoon. There is talk also of a parade to precede the mass meeting. The details of this meeting are to be completed as to secure the armory may require more time than remains. Due notice of the completed arrangements will be given in latter issues.

Arranging for Captains.

The city is to be divided into districts with both men and woman captains for each district with a division of the work so that industries of sizable proportions will be cared for by representatives of the industries. The D. & H. company men will make the canvass among the employees of the company, which will divide the work so that none of the teams will be burdened.

It is expected that the captains will be named today and that they will meet at an early date, perhaps this evening to select their workers, that the latter may be instructed and the work assigned.

To Support All War Charities.

The committee wishes to emphasize again that there is no connection between the war chest and the Liberty loan and thrift stamp campaigns. The chest will be connected in no way with any government project, merely taking in philanthropic campaigns. Another misunderstanding is the common thought that the war chest is to be contributed entirely for the Red Cross society.

"While there will be an allotment to the Red Cross, there will be allotments to every war charity that meets with the approval of the executive committee. The campaign will be run in conjunction with that of the Red Cross national campaign, however.

ONEONTA NORMAL SETS PACE.

State Education Department congratulates School.

A letter received yesterday by Dr. P. L. Baghee from Dr. Finsgan, Deputy State Commissioner of Education, congratulates the Oneonta State Normal school on being the leader of all Normal schools in the state in the recent drive for the Third Liberty Loan. With several subscriptions recently received the Oneonta Normal now totals \$20,500 for the Third loan and \$43,000 for all war activities for the year. Large as these figures are, they will no doubt be considerably increased before the end of the school year. In war activities as in enrollment and size of graduating class, the Oneonta Normal sets the pace.

BIG STRAND ATTRACTION.

Mary Miles Minter in "A Bit of Jade" Today Only.

Mary Miles Minter, known as the idol of the screen and recognized by critics as the youngest talented star, will be shown today in her first special production, "A Bit of Jade." Manager Emis announces that he has received more than a thousand requests for Miss Minter's pictures and hopes that his patrons will enjoy her first offering today.

Theda Bara's big eight-reel production, "The Forbidden Path," will be shown one day only, tomorrow, as there will be a different picture shown each day this week. advt 1t

Money invested in real estate is where you can see it. I have good renting houses for sale at prices that will net you from 6 per cent to 7 1/2 per cent after deducting taxes, insurance and liberal upkeep. Get particulars. W. D. Bush, Oneonta Real Estate building. Phone 110-W. advt 2t

Livery taxi. Phone 996-J. advt 1t

FIRST DAY RECRUITING

Three Local Boys Join the Colors in the Field Artillery—Stamford Boy Accepted—Sergeant John Beach in Charge—Many Openings for Recruits.

As the first day's work of the reopened station for the United States army at 157 Main street, four men were enlisted yesterday for service overseas.

Ralph A. Sandell, 14 Columbia street, a senior at the High school and clerk at the Woolworth store, joined the mounted division of the field artillery.

Melvile D. Johnson, 91 West street, youngest son of the Rev. J. C. Johnson, pastor of the Elm Park Methodist Episcopal church, also joined the field artillery. Johnson has been with Company G, state guard, at Croton Lake for some time, as quartermaster.

Francis W. Haner, 40 West End avenue, also a senior in the High school, was taken for the same service.

Frank C. Tracy of Stamford enlisted in the Quartermaster's corps.

These men will be sent to Fort Slocum later in the week, after the applications have been approved by Major C. T. Greene, who is expected to arrive in the city tomorrow.

One young fellow, fresh from the country, clean-cut, bright, but wearing glasses, and only eighteen years of age tried hard to find a place in some service yesterday afternoon. His choice was the artillery, but the recruiting officer said he could not be taken there because of his defective eyesight. "What other place is open?" he asked. "The hospital corps? Well, I'll take that if I can only get in." But here, too, he was barred because he could not read even the largest letters without his glasses.

The new office is in charge of Sergeant John Beach, who has been transferred here from Newburgh. The sergeant is one of the old school of regulars. He saw service with Pershing, then a captain of artillery, in the Philippines, where he spent eight years. For nine years he was on the Mexican border, and the balance of his 37 years in the army was spent in the west, Montana, and Wyoming.

The sergeant stated yesterday that all branches of the service, except the aviation section of the signal corps, and the white cavalry is open to recruiting, but the applicants must be either between 18 and 21 years old, or 31 and 41. No man eligible for the draft can be accepted. The local station is open daily from 8 a. m. to 6 p. m.

RECEIVING MANY APPLICATIONS.

Elks Compelled to Hold Special Meetings to Initiate Candidates.

Oneonta Elks are having a period of exceptional activities. The number of applications for new members, received during the past few weeks being unequalled in the history of the organization since it was first organized. The number received necessitates holding special meetings each Wednesday evening for the initiation of candidates and at the meeting tonight, a large class, many of whom come from Schenectady, will receive the degrees. It is expected that special meetings will continue each week until the summer vacation period to complete the waiting list before that time.

After the regular session Wednesday evening there will be a feed and it is hoped that there will be a large attendance to greet the new members and participate in the social session that follows.

Finished Goods for Red Cross.

Recent goods finished by the branches and sent in to local headquarters include the following:

Unadilla—23 suits of underwear; six Tarcoval coats, 12 jean bed shirts.

South Hartwick—30 slings and one pair of socks.

West Branch Otsego—17 pairs of socks.

Wells Bridge (Hampshire Hollow school)—One pair of socks.

Milford—215 large gauze compresses, 1,050 small compresses, 25 wipes, 29 skullcaps and 49 gauze strips.

"TARZAN OF THE APES."

World's Most Wonderful Photoplay at Theatre Oneonta Today.

"Tarzan of the Apes," in which the most fascinating character in fiction makes his screen debut, will be shown at the Theatre Oneonta today and tomorrow. This is the picture that has created as much talk as "The Birth of a Nation." It is without doubt the most unusual tale and the most weird series of adventures imaginable. Filmed in the wildest jungles on earth—two years in the making at a cost of \$300,000. The sixth episode of the Son of Democracy will also be shown. Matinee at 2:30 p. m. Evening 7 p. m. and 9 p. m. advt 1t

Only seven lots left out of the 23 placed on sale in the Miller plot on Chestnut street. These are desirable lots with excellent soil for garden. The lots will be sold on easy payments and will prove desirable investments. Inquire of F. D. Miller, 195 Main street, or J. E. Tilley, 511 Main street. advt 1t

On account of inability to do the work, O. A. Benton will not run his bakery wagon on Chestnut, Church and adjacent streets, commencing Monday morning. advt 2t

Ford roadster, nice order. \$350.00; Ford coupelet, almost new, with Gray & Davis starter, \$575.00 cash. Stevens Hardware company, Inc. advt 3t

Now Is the Best Time of the Year to Have Your Furnace or Heater Cleaned

Your heater deteriorates fastest through rusting during the time the fire is out, if the soot and dirt accumulated during the winter is left in to draw and hold the dampness.

Besides, if you wait until during the fall rush when everybody is hurrying for the winter, we may not be able to give you the immediate service we would like to. This you will find true, especially if it should be necessary to order repairs to come from the manufacturers, as the service from all factories is so handicapped by the present conditions that they are absolutely unobtainable.

Leave your order with us at once, and thereby insure for yourself the care of your heater.

Yours for furnace experts.

DEATH OF REV. JOHN B. SWEET

Former Pastor of Oneonta Methodist Church Dies at Johnson City.

Yesterday's Star noted the critical illness of Rev. Dr. John B. Sweet at Johnson City. Yesterday it was learned that he passed away Sunday evening, following the operation performed Friday for the relief of a serious intestinal trouble. The funeral services are to be held Wednesday afternoon at 2:30 o'clock from the church at Johnson City and will be in charge of District Superintendent E. A. Martin, formerly of this city.

Rev. Mr. Sweet had many friends in this city, he having served the Oneonta Methodist church as its pastor in 1901, being called from this pastorate to become district superintendent of the Binghamton district, since which term he has served the churches at Chenango street, Binghamton, and at Johnson City.

Dr. Sweet was a prince of men, genial and friendly, with a true heart. He was born in England 60 years ago and has done valiant service as a minister since 1878. He was secretary of the Wyoming conference for five years and was greatly beloved by his associates and by the people of the churches he served.

Doctor Sweet is survived by his wife, Iona A. Sweet; two sons, Charles E. and Willis D. Sweet, both of Binghamton; a daughter, Mrs. C. F. Tucker, of New York city; two brothers, Frank Sweet of Scranton and Charles Sweet of England, and a sister, Mrs. Huntley of Frome, England.

DEATHS

Michael Stack

Michael Stack, brief notice of whose death appeared in The Star Monday morning, was a native of County Clare, Ireland, where he was born 73 years ago. At the age of 15 years he came to the United States, and for a time resided at Syracuse, this state, and at Pittston and Plymouth, Pa. Later he lived for many years at Wilkes-Barre, Pa., where he was employed as track foreman on the D. L. & W. railroad. Two years ago last month he came to Oneonta, where he had since resided with his son, William, at 6 Harvey street. His illness was of about seven weeks' duration, and death was caused by general debility owing to his advanced age. Mr. Stack had been totally blind for the past ten years.

His surviving family consists of the son, William, above named, and seven grandchildren—Miss Marie Stack of Rochester, Mrs. Jacob Greisner of Wilkes-Barre and Carl, Frank, Joseph, Christian and William Stack of this city. He was a much respected man and leaves many friends at Wilkes-Barre, where he so long resided, to mourn his death.

The body will be taken on the 6:45 train this evening to Wilkes-Barre, where on Thursday morning there will be services in St. Mary's Roman Catholic church, of which he was a member. Interment will be in St. Mary's cemetery in that city beside his wife, who died seven years ago.

John Marsland

Franklin, May 13.—John Marsland died at the Binghamton State hospital Saturday, aged 67 years. He was born in Shetland, England, and lived there until seven years of age, when he came to America. He first came to Rochester and later to Chester, Conn.

He attended John Hopkins university and later Oberlin college and Hartford Theological university. In 1876 he took his first pastorate at Center Village. After having several other pastorates, he came to Franklin and was pastor of the First Congregational church for eight years. He then went to Brooklyn, where he was assistant pastor to Dr. Waters in the Tompkins Avenue Congregational church.

After his stay in Brooklyn, he returned to Franklin and conducted the Outlook boarding house for 12 years. Two years ago, on account of failing health, he gave up his work.

Mr. Marsland is survived by his wife and one son, Walter Marsland. The funeral services will be held from his late home Tuesday afternoon at 2 o'clock. Rev. J. A. Lindsey, pastor of the Congregational church, will officiate and interment will be made in the Outlook Valley cemetery. Deceased was a man of many noble virtues and had always won many friends among his different pastorates. His death will be keenly felt by many.

Edgar Jester

Franklin, May 13.—Edgar Jester died at his home below Franklin village Saturday night, aged 58 years. He was a son of Mr. and Mrs. William Jester and was born in this village.

He was married to Nina Phelps, who died two years ago. Mr. Jester is survived by one son, Fred, who is a member of the Senior class of the local high school; three sisters, Mrs. Edgar Naragon of Oneonta, Mrs. Morehouse of Norwich and Mrs. Edwin Hort of Columbus, Ohio; one brother, Ely Jester, of Otego.

He was a member of St. Paul's Episcopal church, Franklin lodge, F. & A. M., and Outlook chapter, No. 257, O. E. S. The funeral services will be held Wednesday afternoon at 1 o'clock, at the house, and 2 o'clock at the church. Rev. Yale Lyon, pastor of the Unadilla Episcopal church, will officiate and burial will be made in Outlook Valley cemetery.

Mr. Jester had been very ill for ten days with cerebral hemorrhage, caused by diabetes.

Death of Infant

Marion Louise, infant daughter of Mr. and Mrs. Virgil E. Smith of South Side, died at the family home Monday morning. Brief prayer service, to which the relatives only are invited, will be held this Tuesday morning at the home at 11 o'clock, conducted by Rev. N. S. Burr. Interment will be at Glenwood.

Jail Inmates at County Farm

Sheriff VanZandt, who was in Oneonta Saturday, states that the jail prisoners are now doing good work at the county farm. Potatoes and other crops have been put in and every man is not only busy, but anxious to get on the job. The men get their breakfast at the county bawls, their dinners at the farm at Phoenix Mills and are back to Cooperstown for supper, which the day's work makes everybody enjoy. The men employed at the farm work for the county are all short term prisoners, who have little or no desire to take chances by escaping; and all labor is energetically that the trouble as yet on the farm is to provide work enough to keep them busy. The sheriff is naturally proud of his war contingent, and their efforts are proving very successful.

To Oneonta for Burial

The body of Ellsworth E. Cornell, who died in Binghamton on Friday, was brought to Oneonta Monday for burial in the family plot in Glenwood cemetery. The deceased, who was about 55 years of age, was a former resident of this city and will be remembered by many of our citizens. His wife and son, Leo, his mother, Mrs. Cornell-Joslyn, and brother, A. B. Cornell, accompanied the body to this city for burial. Mr. Cornell's illness was of about seven weeks' duration.

Charles King Enlists

Charles King, son of Mrs. Bertha King, 7 Hickory street, enlisted in the Navy Reserve corps at Scranton, Pa., last week. He has been working in Carbondale, Pa., through the winter. He has returned home waiting to be called.

Business Men Must Fight With the Courage of the Nation's Soldiers

If your business is one of usefulness and service to the community, fight for it! Keep it efficient, keep it prosperous! That means service to your country in its greatest crisis!

Some of your best employees have joined the colors. Their work at home was necessary, useful work. In their absence, others must do it. No important task may be abandoned. Find men (not available for service at the front) and women (who are taking up men's tasks everywhere) to fill up your ranks and to keep your business active and prosperous. Advertise for them—and you can find them!

The Season For Rugs, Linoleums and Carpets

Housecleaning naturally brings to mind the necessity of making some changes in the floor covering of your home.

We show a good assortment of Carpet Size Rugs in Brussels, Axminster, Wilton and Wool and Fibre, making the selection of a rug for the living room, dining room or bed room a pleasant task.

IN OUR LINOLEUM DEPARTMENT

You will find various designs and qualities ranging from the heaviest inlaid Linoleums to the lighter felt base Congoleum. You will experience no difficulty in selecting a pattern suitable for the kitchen or bath room.

QUAKER LACE CURTAINS

Whether you make your own Curtains or buy them ready made, there is probably no material so adaptable, so transparent, so dainty, and of such charming design as the popular Quaker Lace.

By the yard 39c, 50c, 75c to \$1.25

By the pair \$1.50, \$2.00, \$3.98 to \$8.00

TWICE PROVEN

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't experiment. Read this twice-told testimony. It's Oneonta evidence—don't deny.

G. Burrows, railroad switchman, 46 South Main street says: "My back was weak and pained me a great deal when I stooped over or straightened. I was nervous, had headaches and dizzy spells and didn't seem able to control the kidney secretions. I had to get up several times at night and I lost much weight. Finally I got a box of Doan's Kidney Pills at Marsh's drug store and before long the pains and other ailments disappeared."

Over five years later, Mr. Burrows said: "The cure Doan's Kidney Pills made for me has been permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Burrows had. Foster-Milburn Co., manufacturers, Buffalo, N. Y.

HANDICRAFT FOR BOYS

By A. NEELY HALL
Author of "The Handy Boy," "The Boy Craftsman," "Handicraft for Handy Boys," etc.
(Copyright, by A. Neely Hall)

HANDY THINGS TO MAKE FOR MOTHER

For the sleeve board (Fig. 1) you will require wood three-quarters of one inch thick, out of which to cut pieces A and B (Figs. 2 and 3), and a carpenter's "dowel" stick about two feet long from which to cut four pieces five inches long for connecting A and B. Figs. 2 and 3 show the measurements for cutting pieces A and B.

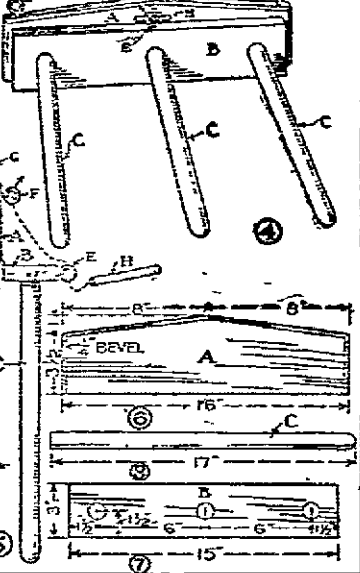

and the location of the one-half inch holes for the dowels, which should extend entirely through the pieces. Coat the ends of the dowels with glue, and fasten them with finishing nails driven through the edges of A and B.

Fig. 4 shows a unique rack for hinged towels, with the back board so hinged that, when the towels hung upon them have dried and been put away, the arms may be dropped out of the way as in Fig. 5.

Fig. 6 shows the dimensions for board A, Fig. 7 the dimensions for board B, and Fig. 8 the length of the broomhandle arms C. The holes in board B must be of the exact diameter of the broomhandles. Coat the ends of the arms with glue, and drive a nail through the edge of board B into each.

One pair of hinges is sufficient for hinging board B to A. They should be screwed to the edges as shown at D (Fig. 6). Screw eyes E and F (Fig.

5) are provided for pin H to slip through when the arms have been raised, to hold them in that position (Fig. 4).

Screw one screw eye into the edge of board B (E, Fig. 5), and two screw eyes into board A (F, Fig. 5), in the right positions so when the arms are raised screw eye E will come between screw eyes F. Screw eyes G (Figs. 4 and 5) are provided for hangers.

WHITE PLAGUE KILLS MORE MEN THAN BULLETS

It seems longer, but it was less than four years ago that the nations had not yet started in to wipe each other off the map and that the only times when one heard of the Red Cross were times of food or disaster and at Christmas time, when the peaceful little Red Cross tuberculosis seals made their annual appearance.

Perhaps, in fact, it was the long, arduous fight in America against the White Plague which, in spite of the war's enormous new demands, is responsible for the special interest being taken by the American Red Cross in France's frightful struggle against consumption.

This scourge seems to mark the trench fighter for its own. It kills more men than do bullets and poison

gas combined. Until the American Red Cross was permitted by the French government to start its drive against tuberculosis it looked as if, even with a victory over the Hun, France might eventually be conquered by this deadlier foe.

Already things are looking brighter. The Red Cross has taken over old hospitals and built new ones. More than 500 tuberculosis dispensaries are to be opened throughout the country, and Red Cross doctors and nurses—scores of them—are devoting themselves exclusively to this fight, doing over there exactly the same kind of work which is financed in America by the little Christmas seals. It is one of the ways in which by our contributions to the Red Cross America can repay her debt to France.

Restores the Balance.
Each solitary kind of action that is done, the world over, is working briskly in its own sphere to restore the balance between right and wrong.

If Swift & Company Made No Profit

The consumer would pay only 1/4 cent a pound less for his dressed beef.

If Swift & Company waived all profit on cattle, and gave it to consumers in the form of lower beef prices, this would reduce the cost to the average consumer less than 25 cents per year for all the beef he eats.

In fact, the packer's profit is so insignificant that if surrendered to the consumer the effect upon retail meat prices would be practically nothing.

It is because of the volume of meat handled that the investor in Swift & Company's business receives a satisfactory return upon his money.

These figures for 1917 are convincing:

The profit of \$1.29
per head averages
1/4 cent per pound
on dressed beef—

Average Receipts:

Per animal for beef - \$68.97
Per animal for by-products 24.09
\$93.06

Average Disbursements:

Per animal for cattle on
hoof - - - - - \$84.45
Per animal for dressing,
selling and freight - 7.32
Net profit per animal - 1.29
\$93.06

AVIATOR CHECKED GENERAL ADVANCE

Rained Missiles on Enemy infantry at Cambrai.

USES RELAY OF MACHINES

As Soon as One Was Crippled British Airman Would Nurse It Home and Bring Out Another—Swoops Down on Germans Many Times, Crumpling Up Every Attempted Attack With His Machine Gun Fire.

A stirring story of how one daring British aviator, like a guardian angel, held up for a whole day repeated enemy attacks upon a weak and crumbling British line at Cambrai in the height of the desperate struggle there by using four airplanes, one after another, as they were torn and crippled by enemy fire, has just come to light. It shows that some of the most daring and dangerous airplane work of the last year has been in the new field of attacking enemy infantry from the air.

The Germans were trying to recover a portion of the lost Hindenburg line, pushing with a great weight of men and guns at a point where it was very difficult for the British to bring up reserves. The British battalion opposing the attack had gone to earth in little isolated spots among the shell holes, grimly determined to hang on to the end.

The German masses had already moved across No Man's Land into the battered earthworks that once formed the British firing line. Other masses were moving up in support, and already the nearest shell holes were heaving and boiling over with restless heads and shoulders of men about to renew the advance. The barrage of the British guns was heavy, but at close quarters only infantry can stop the progress of infantry, and the fire from the British shell holes had grown weak and struggling. It looked as if the scanty British lines would be overwhelmed by sheer weight of numbers.

*r Alive With Bullets.

The air from the Germans increased until the air was alive with their bullets. It was the concentrated fire which always precedes the rush to close quarters. The blue-gray figures were already beginning to appear above the shell holes, their loose flapping uniforms and hideous gas masks giving them the appearance of demons, when suddenly into the smoke and murk of battle there dived a British airplane.

Fifty feet from the ground it flattened out and skidded along the line, dropping its bombs among the bewildered Germans. Wheeling swiftly at the flank of the attack, it came skimming back like a swallow charging a swarm of flies, its machine guns enflaming the advancing foe and driving him back to his burrows.

A storm of German bullets swept through the planes, and a black flame-centered burst of enemy shrapnel smothered the airplane in vapor. The watching infantry saw splinters fall from its quivering frame and the silvery fabric of the underwings was torn in several places by shell splinters. But the daring pilot finished his course and vanished into the smoke clouds, leaving the panic-stricken enemy clinging to his shell holes too shaken and thinned to press the attack further.

Little by little, however, the German supports came up, advancing by short rushes over the open, re-enforcing their comrades in twos and threes, in spite of British fire. Scores and scores of them, dead littered No Man's Land, but gradually the strength of the attacking line was made good, and the shell holes again began to heave and boil, as men rose from the lower cover and laid hold of the rims to assist them over the top.

Outweighed the British.

Then, suddenly, they were over and away, little spurts of humanity belched out of the crater field, coalescing into a seething blue-gray, rushing mass, hopelessly outweighing the handful of British defenders. But before the mass could gain full momentum, a familiar scolding hum sounded above the din of battle, and out of the low-lying haze swept the covering airplane, a new machine, but with the same pilot as before. His bombs dropping among the advancing Germans, dispersing those who escaped the flying fragments, and his machine guns swept them out of sight into the shell holes.

A half hour passed, and again the enemy attempted to attack, this time hesitatingly and with diminished spirit. Again the airplane appeared, and the first rattle of its guns sent the Germans into cover again. A German airplane dashed down to drive him away, but another British machine from the protective patrol came down on the German's tail and sent him cartwheeling behind his own lines. There

were other German machines in the offing, but the watchful British fighters made the enemy airmen shy of losing their altitude, and the dashing British pilot kept his guard over the threatened line without further interference.

Many times he swept down on the Germans that day, crumpling up every attempted attack with his fire, rendering portions of their positions untenable with his bombs often rocking madly in the air gusts from a barrage salvo, just as often performing wilder maneuvers to confuse the gunners and riflemen who searched for him incessantly. Three times his airplane was so badly damaged that he had to nurse its falling strength back to his air-drome. But each time he returned in a new machine, encouraging the British infantry by his example, and scattering death and confusion among their foes. He was flying his fourth machine when darkness settled down, putting an end to the conflict, with the Germans securely checked.

Automobile Alarm Whistle.

An alarm whistle to be mounted on an automobile cylinder valve cap is said to be about ten times as powerful as the type sounded by a car's exhaust.

Daily Thought.

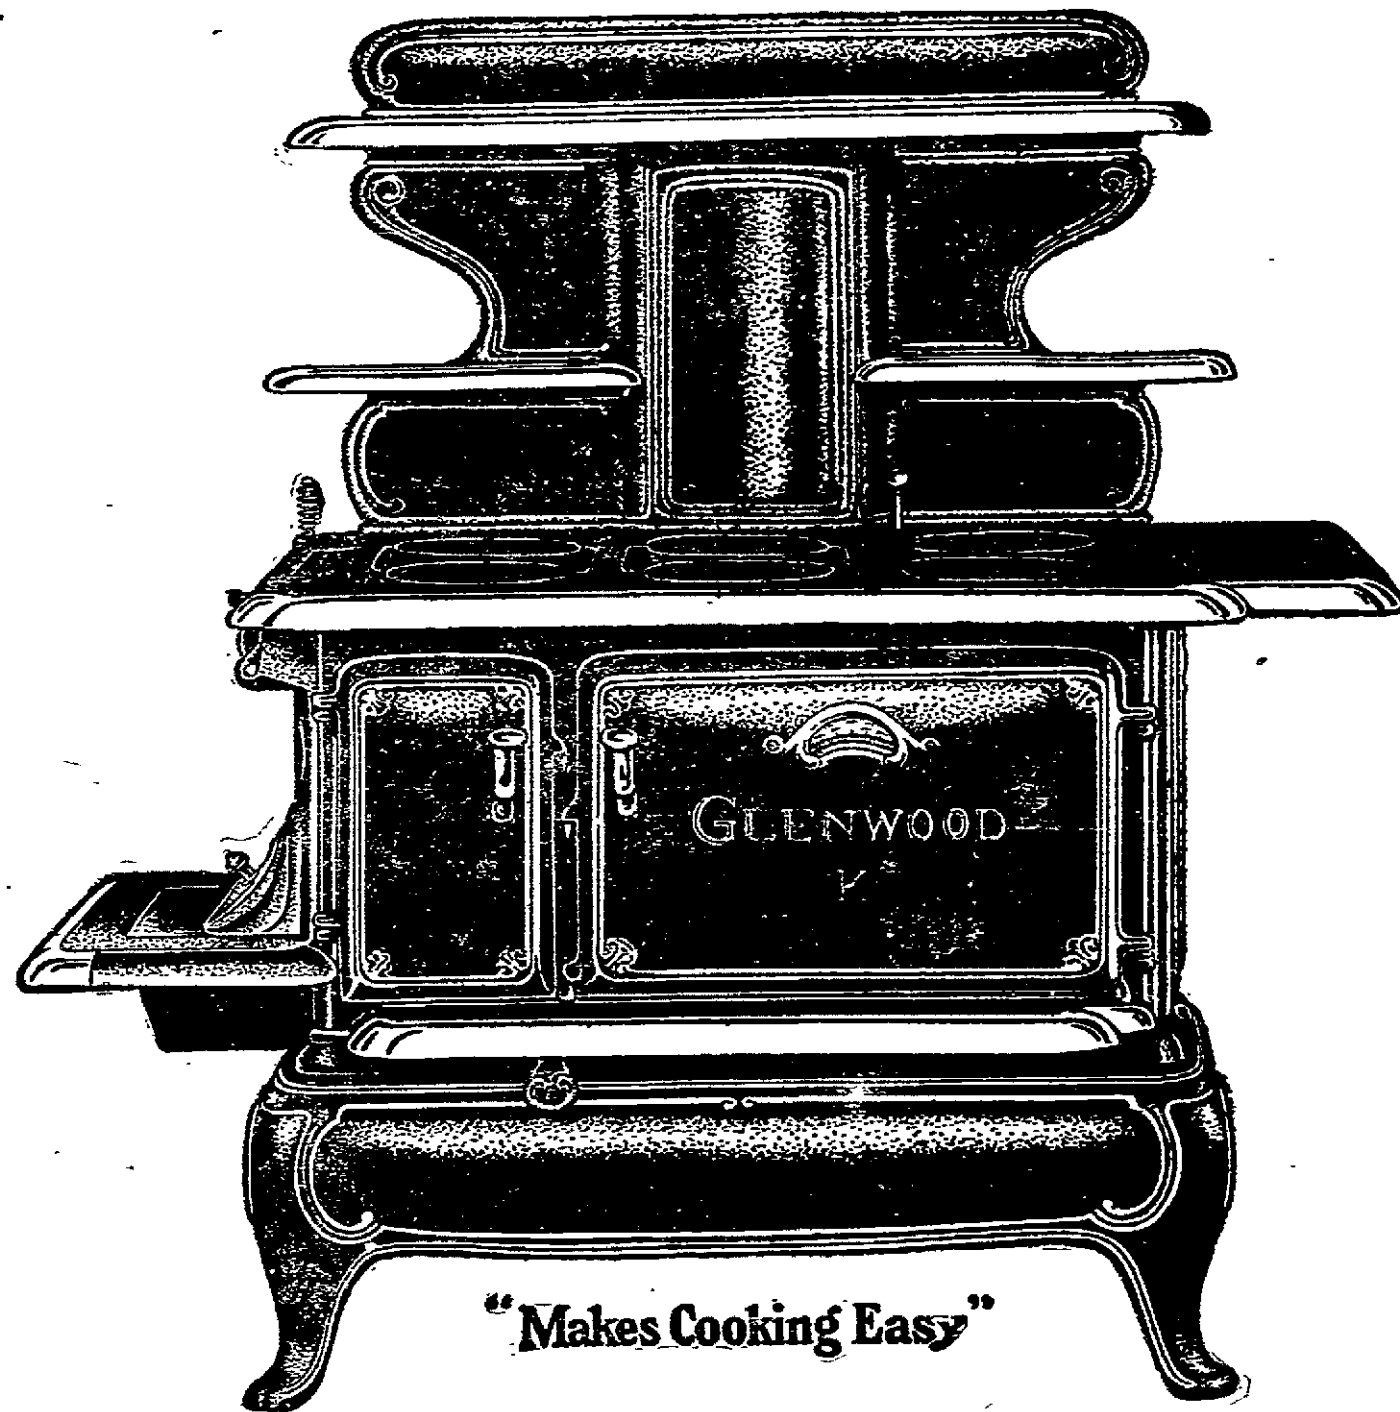

Few persons have courage enough to appear as good they really are.—J. C. and A. V. Hare.

Glenwood

Comfort And Saving

Go hand in hand—to the fortunate owner of a modern Glenwood Range. No spoiled food, no wasted fuel or loss of heat—everything is right from grate to damper in this truly wonderful range.

It pays for itself many times over in the convenience and satisfaction it brings to the home. Get one and be glad ever after.

"Makes Cooking Easy"

Baker Brothers, Oneonta

TO MEND LEAKY WINDSHIELD

When Heavy Storm Is Encountered Trouble May Be Averted by Overlapping Glass Panes.

With the slanting type of windshield water is very likely to leak through the slight opening between the two panes of glass when a heavy storm is encountered. This trouble may be obviated by making one of the panes overlap the other, which, of course, calls for the fitting of a new upper or lower half.

Punctual Attendance.

"Why don't you go to school?" "I been to school every day this month," replied the incorrigible. "Your teacher hasn't seen you?" "Well, I mostly didn't get there till recess started, and so's to avoid argument I left as soon as the bell rang for school to take in again."

DIABETES

Do not be discouraged if you have diabetes and have failed to find relief—Try DIABETOL, a natural herbal medicine which has benefited many who had despair of improvement. The effect of DIABETOL is oftentimes realized in the first week's treatment, improvement being noted in a reduction of the percentage of sugar in the urine and in the alleviation of other distressing symptoms of the disease. DIABETOL may be obtained at Geo. S. Slade's Drug Store. A booklet containing valuable information on Diabetes and the DIABETOL treatment—free on request. Ames Chemical Co., Binghamton, N. Y.

I Wish to Announce

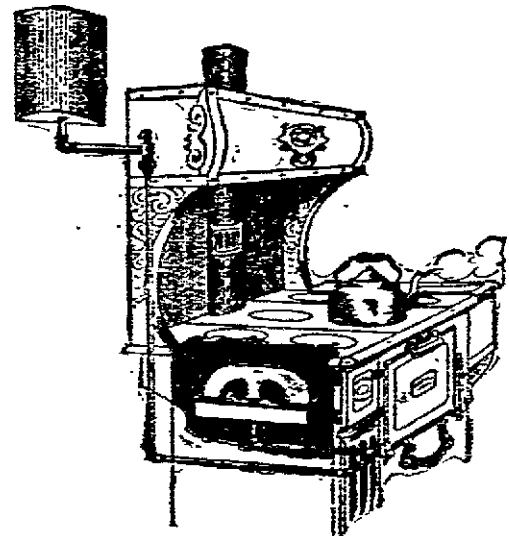

That I have taken over the agency for the V. H. C. Bumer for Otsego county.

This bumer can be installed in any cook stove or range without altering your stove. It burns kerosene, crude or fuel oil without the slightest odor.

An ideal article for a camp house as well as for the most up-to-date city dwelling. No dirt nor lugging of coal and a great money saver.

Completely Installed \$15 F. J. Arnoys, Jeweler

Call at the demonstrating rooms at 117 Main St. and Mr. F. E. Rath, General Sales Agent, will gladly show you the conveniences of this wonderful invention.

Our Potato Column

Article No. 4.

KEEP EVERLASTINGLY AT IT.

This is the Only Way to Prevent Potato Blights and Rots.

There are three essentials in spraying potato crops.

The first is to start early, when the vines are about six inches high.

The second is to spray so as to cover the plant—above, below, on the right side, on the left side, in front and at the back.

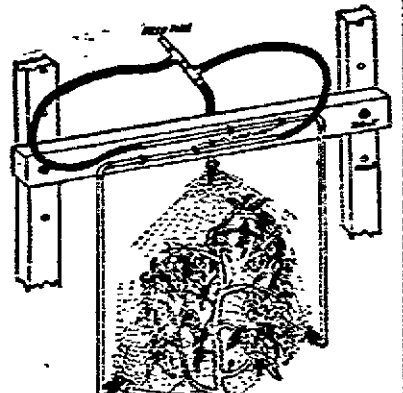

The third is to keep at it so that the spray covering will keep up with the growth of the plant, and be renewed as often as washed off by beating rains.

It looks easy. It is easy. But first the would-be sprayer must have the right idea.

Potato bugs cause people to start spraying early—if they did not there

terial is washed off by beating rains. This may sound serious, since sometimes heavy rains come almost every day; but remember, spray materials are adhesive and last a long time. Furthermore, it is in the season of beating rains that spraying is most needed and after all most profitable.

3. Cover the whole plant—not simply the top leaves of the top branches.

Thorough Spraying. Three Nozzles Needed After the Vines Pass the Blossoming Stage.—Courtesy Michigan Agricultural College.

This covering, however, should be with a mist, not with a sprinkle. It should be from beneath and from the sides as well as from the top.

A nozzle per row is sufficient to begin with. When the vines get larger, two nozzles are needed. When the vines cover the rows effective spraying cannot be done with less than three nozzles, one at the top and two at the sides. This means that plenty of power must be had so that every inch of the vines can be covered.

Sometimes would-be sprayers may mistake the quantity of spray. For the first spray, 50 gallons per acre is enough. Naturally, as the vines grow larger more spray is needed. Three times 50 may be needed when the vines are large enough to lodge between the rows.

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter, will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

THE LITTLE OLD LADY OF PANSY SQUARE

Timidly she entered the Red Cross Bureau and stood just within the doorway.

Her poor, dimmed old eyes spoke so eloquently: "I'm friendly, ladies, but a little afraid."

Several of us rose, but Mrs. Crawford reached her first and asked her to come in and sit down.

"Oh, thank you so much," quavered the old lady as she sat down. "You see, my boy—my grandson—has gone and"—with Spartan fortitude she restrained the tears that glistened in her eyes—"gone with his regiment. Now I'm all alone in my little cottage in Pansy Square. And, oh, ladies, do any of you know the dreary loneliness when there is no one who comes home at night?"

We almost hugged the dear old lady, so forlorn, yet so brave. We drew up our chairs closer, and she told us her story.

The little old lady owned a vine embowered cottage in Pansy Square. There she kept house for her grandson, who worked in a downtown office. When America took up cudgels for democracy the lad, in patriotic fervor, was among the first to enlist.

"Ah, how I loved him and needed him!" whispered the old lady brokenly. "But my dear country needed him more. So I told him to go. 'But what will you do, granny?' he asked. I told him I had enough, and so he went. Brave, brave heart! My husband was a soldier, and I have his pension. But it is small. After paying the taxes on my cottage there was little left, and now it is gone. I'm old, but I'm willing. All I ask is a chance to earn my bread till—till he returns."

Through the Home Service workers of her community the little old lady of Pansy Square has been provided with simple tasks, such as making preserves and delicious cakes and jellies, a labor of love for her and an unfailing source of revenue.

Some day, please God, her soldier boy will come back to the little old lady of Pansy Square, and he will find her as he left her—happy, comfortable and self-reliant.

As a Rule.

A "little friendly advice" is very seldom nice. It is a phrase that men employ when saying something to annoy.

Not So Bad.

"John went to get a marriage license and got a dog license by mistake."

"Not so much of a mistake when you come to think of a married man's life."

Another Burbank.

Florist—This rubber plant is cheap at the price.

Lady—Why so?

Florist—If your husband is smart he can grow his own automobile tires.—Boston Transcript.

Save Fuel Wisely

Saving fuel is working hand in hand with the Government these days. And one way to save wisely and well is to use SO-CO-NY—the quality gasoline. It means minimum consumption and maximum power.

Inferior, low-grade mixtures mean waste in the form of increased consumption, lost power and excessive carbon deposits.

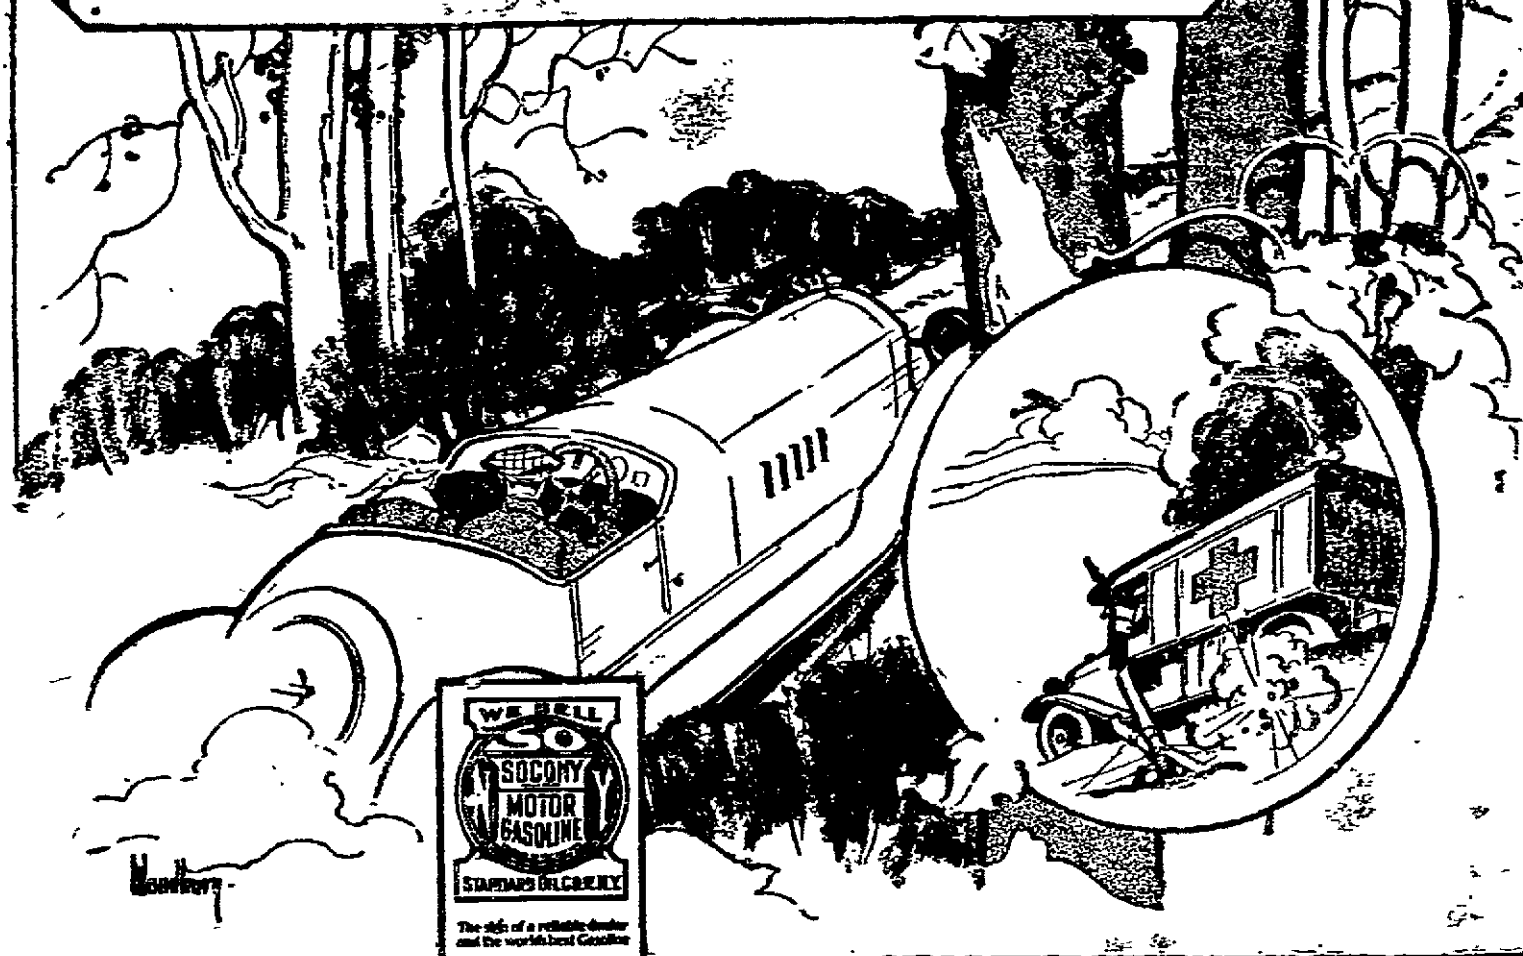

There's power in every drop of SO-CO-NY. It's clean, quick starting; reliable; obtainable everywhere.

Look for the Red, White and Blue SO-CO-NY Sign. It's the wise way to save fuel.

Fuel-saving Here

Means Life-saving There

STANDARD OIL COMPANY OF NEW YORK

SO-CO-NY MOTOR GASOLINE

BY SUBSCRIBING LIBERALLY TO THE ONEONTA WAR CHEST YOU WILL BE HELPING THE RED CROSS

How Was the Last War Fund Spent?

It is a fair question---and it is fairly answered in the detailed and itemized reports that have been published in the newspapers of every town and city of the land.

You never saw it? Then ask at the Chamber of Commerce, or write, for the Red Cross and the Oneonta War Chest want you to know where your money went.

It's not always a cheap way--"Needs must" cost money. But did you give that money to be saved--or to save lives? Are you not willing to pay five dollars or fifty monthly to bring something of comfort to a war racked, tortured mortal who but for you would surely die?

The Red Cross War Fund quota for Oneonta will be provided by the Oneonta War Chest. By subscribing liberally to the Oneonta War Chest, you are helping the Red Cross.

And of one thing you may be sure. Not one penny of that Hundred Million has gone for anything but War Relief.

In the Red Cross there is no high salaried bureaucracy, no extravagant administration expense. All of the higher officials and nine-tenths of the workers are unpaid volunteers.

The cost of raising and collecting the last war fund was about one-half of one per cent; more than covered by the banking interest on the money.

Your Red Cross needs another hundred million to lighten just a little of the awful load of misery "over there." Your share is all that you can give, and then a little more.

Will you hold up your end?

(Concluded from Page Three.)

week from an extended stay during the winter months in Florida, and has resumed her labors with the Mirror-Recorder.

Dr. McMurphy's Practice Not Taken.

Up to this writing there has been no practitioner of medicine who has decided to locate in the place of the late Dr. C. K. MacMurry. While there have been a number who have looked the ground over, none have as yet definitely decided to locate here.

Public Sale of Appraised Articles.

John C. MacMurry, administrator of the estate of the late Dr. C. K. MacMurry, held a sale on Friday last to dispose of the personal effects of the estate. A good number of buyers were present and a large number of the household articles were sold.

No Services in Presbyterian Church.

The pulpit of the Presbyterian church was vacant on Sunday, the pastor, Rev. W. D. Curren, being absent on a short vacation with his parents in Ballston.

Prominent Hotels Released

Churchill Hall and the New Grant House are both released as yet. It is reported that if arrangements satisfactory to the executors of the estate of Dr. Churchill cannot be made that the former will be run by one of the number. The Grant House will be opened for the season, but under what management is not yet stated. The latter house is having many improvements made to the interior, and bath suites having been added, making for the convenience of its patrons.

Season's Prospects for Stamford

Reports from various houses in the place show that the application and bookings for the coming summer are well up to the former marks and unless unusual conditions interfere, Stamford will have at least its normal season.

N. P. Young Returns to Stamford.

News from the south states that N. P. Young, who lost his handsome residence by fire last winter, is to return again to Stamford and will make his home in the residence in Churchill park in the house formerly owned by A. D. Middleton of New York, but which Mr. Young purchased a couple of years ago.

THE DAY IN HO-BART

Hobart, May 13.—Mrs. M. C. Dales and daughter left this morning to visit her parents, Rev. and Mrs. W. T. George, at Washingtonville. W. T. Ryer has purchased a Marshall-Cowan a Reo touring car.—Mr. and Mrs. L. Horton and Mr. and Mrs. C. Horton of New York spent the week-end at the New Hobart.—Miss Bettie Cronkite, a student at the Oneonta Normal school, is a guest of Miss Annie Mc-

Clelland.—Miss Burlington of the High school faculty spent Saturday and Sunday at her home in Oneonta.—Mrs. L. Rowland of Oneonta is visiting her parents, Mr. and Mrs. J. O. Hillis.—Miss Carol L. Rich of the Oneonta Normal spent the week-end at her home here.—Mr. and Mrs. James Gray of Halcottville were over Sunday guests of her brother, Howard Walley.

The Ladies' Aid society of the Methodist church will hold its annual meeting at the home of Mrs. A. S. Carroll Wednesday afternoon at 2 o'clock. There will be election of officers for the coming year.—Mr. and Mrs. George Walker of Vega spent the day with her sister, Mrs. D. T. Lyon.—C. T. Finegan, who has been in Avon for the last few weeks, is in town.—Ther-

on B. Kelly and two children and Mrs. Mary Bouton of Margaretville, were guests Sunday of Mr. and Mrs. E. H. Reed.—Mr. and Mrs. C. E. Hoagland and daughter, Miss Lois were guests Sunday of Mr. and Mrs. Charles Buckingham at Harpersfield.—Mrs. Delany and Miss Sara Doest of Syracuse are visiting their sister, N. S. George Titch.—J. A. Foote spent the week-end in New York.—Miss Helen Thompson of Oneonta spent the week-end at her home here.—Mrs. Fred More, Mrs. James E. Stevenson, Mrs. Alex Avery, Miss Eleanor More and Wallace Rich motored to Oneonta Saturday.—Henry Clark spent the past few days in New York and at Camp Dix, N. J., where his brother, William, is in training.—Mr. and Mrs. Charles Flesch of Canadilla were in town Sunday.—The Woman's Missionary society of the Presbyterian church will meet Wednesday afternoon at 3 o'clock with Mrs. T. B. Gould.

DAILY DELHI DATA.

Delhi, May 13.—Ned C. Jacobs of New York, formerly a resident here, is in town for a few days. He is also visiting at Elk Creek-Meredith.—Mrs. William Gleason, who has been in New York during the winter undergoing treatment for her eyes, has returned home greatly improved.—B. and C. B. Johnson, Hon. E. A. Mackey, Fancher & Fancher, W. F. White, A. J. McNaught Jr., A. C. Fenton, O'Connor & O'Connor, W. H. Allen, are among the county attorneys in attendance at surrogate's court here today.—The new principal of schools, Mr. Arthur, has been in town for a short stay.—The body of the late Dr. Charles S. Allaben of Margaretville was taken from the vault today and interred in Woodland cemetery here.—In the supreme court, now holding a session here, the case of LaValley against the New York, Ontario and Western Railway company, is still on trial.—LeRoy Mable has entered the employ of Aaron Stern as a clerk.—E. M. Stern of Walton was in town today.—Mothers' day was appropriately observed at the different churches yesterday.

PUT DOWN EGGS NOW

May Eggs Good for Winter Storage—Simple Formula Keeps Them Perfectly.

May eggs are good for winter storage for winter use in water glass or other preservative. While many simple methods are used, the water glass is perhaps as practical and certain as any of them, according to the state college of agriculture.

If one keeps hens, it will be an easy matter for him to know that the eggs which he puts down are absolutely fresh. If it can be arranged they should also be sterile. If he hasn't poultry of his own, he would do well to find some friend or neighbor who can supply him.

Mix nine parts of boiled water with one of water glass, which can be obtained at any drug store, put the clean, fresh eggs in a jar and cover with the solution. Put the jar in a cool place and avoid disturbing the jar in any way. Some housewives report to the college that they have found ten parts of water to one of the water glass makes a satisfactory solution, and while this may answer the supply of water glass is difficult to obtain, it seems to the college like poor economy to run any risk of losing a jar of eggs through an inadequate preserving solution.

Eggs in water glass keep perfectly and are good for table use until late in the following spring. Within the week the college has learned of housewives who are still using as table eggs those put up a year ago. If the eggs are boiled—and boiling is perhaps the least satisfactory way of cooking preserved eggs—it is well to prick a small hole in the shell before they are boiled to prevent cracking of the shell. The action of the water glass is to hermetically seal the egg.

Eighth Grade Teams Play.

The base ball teams of the two eighth grades of the Academy street school met in "deadly combat" Saturday morning at the Ne-ah-wa park grounds. In a close game, Miss Lyon's grade defeated Mrs. Covey's grade by the score of 14 to 13.

An Impression of General Foch.

A Three Months' subscription to The Star for \$1.00.

THE RED CROSS IN WESTFORD

Large Attendance at Baptist Church Meeting on Wednesday Evening.

Westford, May 13.—The community Sing and Red Cross meeting, held last Wednesday evening at the Baptist church, was a very successful gathering and highly enjoyed by the large company present.

The meeting was opened by an instrumental selection by Mr. and Mrs. C. M. Buisen and son of Schenectady, and J. A. Skinner of this place.

Rev. C. H. Colgrove then introduced Rev. E. VanHorne of the Methodist Episcopal church, who offered prayer.

All joined in singing "America," after which followed solos by Rev. Boyce of Schenectady, Mrs. VanAlstyne and Mr. Millsbaugh of Maple Valley, and a duet by Rev. Boyce and Prof. Hardy of Schenectady. All were heartily enjoyed.

Prof. Anibal of the Oneonta Normal school was then introduced, who gave an address that was both instructive and entertaining. Three ladies from Oneonta were present and gave short talks on Red Cross work, which served to impress on all the importance of such work.

Prof. Hardy then gave a stirring address on the war and conditions resulting therefrom, and concluded by an appeal for Red Cross members and for monthly subscriptions to carry on the work. A silver collection of over \$50 was received. Since then the work has been continued and several members added and more subscriptions obtained.

Lee McMorris was elected temporary chairman and David Skellie secretary. The thanks of all interested are extended to all those from other places who gave of their time and talent towards making the evening so successful and entertaining.

SUFFERED TERRIBLE AGONY

"Fruit-a-lives" Alone Gave Him Quick Relief

Buckingham, Que., May 3rd, 1915.
"For seven years, I suffered terribly from severe headaches and indigestion. I had belching gas from the stomach, and I had chronic constipation. I tried many remedies and nothing did me good. Finally, I found 'Fruit-a-lives'. I took this grand fruit medicine and it made me well. To everyone who has miserable health with Constipation, indigestion and Bad Stomach, I say take 'Fruit-a-lives', and you will get well!"

ALBERT VARNER.
50c. a box 6 for \$2.50, trial size 25c. At dealers or from FRUIT-A-LIVES Limited, Oneonta, N.Y.

LIVES 200 YEARS

For more than 200 years, Hamlet Oil, the famous national remedy of Holland, has been recognized as an infallible relief from all forms of kidney and bladder disorders. Its very age is proof that it must have unusual merit.

If you are troubled with pains or aches in the back, feel tired in the morning, headache, indigestion, insomnia, painful too frequent passage of urine, irritation or stings in the bladder, you will always get relief and quick relief in GOLD MEDAL Hamlet Oil Capsules. This is the good old remedy that has stood the test for hundreds of years, prepared in the proper quantity and convenient form to take. It is imported direct from Holland laboratories, and you can get it at any drug store. Your money promptly refunded if it does not relieve you. Be sure to get the genuine GOLD MEDAL brand. In boxes, three sizes.

Rub Youngsters' Colds Away With "Outside" Vapor Treatment

Local Druggists Have Imported the Invention of a North Carolina Druggist That Relieves Croup and Cold Troubles By External Application.

You Can Try a 25c Jar on 30 Days' Trial and Your Druggist Will Refund the Purchase Price If You Are Not Deighted With the Test.

Every mother breathes a sigh of relief when she first tries the North Carolina treatment, Vick's VapoRub, and finds that it is no longer necessary to "dose" the children with nauseous medicines for croup or cold troubles. VapoRub comes in solid form and when applied over the throat and chest, the body heat releases the ingredients in the form of vapors.

These vapors, inhaled with each breath, all night long, carry the medication direct to the air passages and lungs. At the same time VapoRub is absorbed through and stimulates the skin taking out that tightness and soreness in the chest. VapoRub has a hundred uses in the home—for deep chest colds, sore throats, bronchitis or incipient pneumonia just apply Vick's VapoRub on the throat and chest and cover with a warm, flannel cloth. For head colds, hay fever, asthma or catarrhal troubles VapoRub can either be applied on the nostrils or a little melted in a spoon and the vapors inhaled. Croup is usually relieved within fifteen minutes and an application at bedtime prevents a night attack. All mothers are urged to take advantage of the 30-day trial offer now being made by the local druggist and see for themselves just what VapoRub will do.

Ready For Immediate Delivery NEW MOTOR CARS

NOT DRIVEN OVERLAND FROM FACTORIES BUT SHIPPED BY FREIGHT AND EXPRESS

CHANDLER, SEVEN PASSENGERS
